

The Dune
Goh Beng Kwan

Our core values

Integrity

We maintain the highest standards - ethical, moral and legal – in all our dealings with our customers and with each other, without compromise.

Teamwork

We work as a team in which everyone, even the most brilliant, is united to reach our personal and corporate goals through co-operation and mutual loyalty.

Trust & respect

We earn the trust and respect of our customers and colleagues by being open, honest and honourable in all we say and do.

Performance excellence

We strive to do better every day because we are committed to market leadership throughout our organisation and this will continue to guide our future growth and development.

The Dune, by Singapore's Cultural Medallion recipient Mr Goh Beng Kwan, is part of the UOB Art Collection. The artwork is the winning piece at the inaugural UOB Painting Of The Year ("POY") Competition in 1982, and was inspired by a dune in a small town in Massachusetts, USA, where Mr Goh had studied to be an artist. The UOB POY Competition and Exhibition is a flagship event under the corporate social responsibility programme of United Overseas Bank Limited.

Company profile

The United Overseas Bank (Thai) Public Company Limited (“UOB (Thai)”) was incorporated in November 2005 following the merger of the Bank of Asia and UOB Radanasin Bank. UOB (Thai) is a fully-licensed commercial bank. With its wide network of 145 branches and 322 ATMs nationwide, UOB (Thai) offers consumer and corporate customers a comprehensive suite of quality products and services to meet their financial objectives and needs. To complement its commercial banking business, UOB (Thai) has four subsidiaries providing services including asset management, hire-purchase, leasing, futures broking and debt collection.

UOB (Thai) is rated among the top banks in Thailand by Moody’s Investors Service and Fitch Ratings:

Moody’s Investors Service:

International rating	Financial strength	D
	Short-term	Prime-2
	Long-term	Baa1

Fitch Ratings:

International rating	Individual	C
	Short-term	F2
	Long-term	BBB+
National rating	Short-term	F1+(tha)
	Long-term	AA+(tha)

UOB (Thai) is 99.60% owned by Singapore-based United Overseas Bank Limited (“UOB”). In addition to Thailand, UOB has an extensive network of more than 350 offices in 18 other countries and territories.

UOB is rated among the world’s top banks by Moody’s Investors Service, receiving B for financial strength, and Aa1 and Prime-1 for long-term and short-term bank deposits respectively.

UOB’s mission is to be a premier bank in the Asia-Pacific region, committed to providing quality products and excellent customer service. UOB (Thai) aims to play a significant role in advancing this mission while contributing to Thailand’s economic development.

Chairman's statement

“...the overall global economy remains highly challenging...”

The Bank intends to grow prudently and manage its risks and costs in 2010.”

2009 Review

2009 was a very challenging year for the world. The fallout from the global banking crisis of 2008 and subsequent credit crunch led to economic contraction in many countries. This was softened by massive stimulus packages implemented by most governments around the world.

Despite being largely insulated by the global banking crisis, Thailand was not spared from the rapid global decline in demand for goods and services. Compared to 2008, Thai exports contracted by about 13%, investments declined 9% while domestic consumption was flat. The Thai Court's ruling against the Map Ta Phut projects on environmental grounds had also shaken investors' confidence. All these led to an overall GDP contraction of about 3% for Thailand.

UOB (Thai) actively managed its assets portfolio during this economic slowdown period. The Bank's Management Team and Customer Relationship Managers worked closely with our customers to understand the implications of the economic slowdown on their businesses, and to provide the appropriate banking solutions to alleviate their difficulties.

Corporate Developments

In August 2009, the Bank realigned its organisation structure, in line with the UOB Group's restructuring exercise. This new structure will allow the Bank to seamlessly share the UOB Group's best-in-class products and sales expertise. It will also enable us to respond more quickly and effectively to our customers' needs in Thailand as well as in the region.

2009 Performance

The Bank achieved a net profit after tax of Baht 849 million in 2009, a 44% decline from 2008's Baht 1,529 million. This lower net profit was attributable to lower income from a smaller loan portfolio following the economic slowdown and higher provision requirements for the consumer loans and our historical foreclosed properties portfolio, offset by cost savings in business volume related expenses.

Total loans declined by about 9.6% to Baht 144.0 billion at the end of 2009. Non-performing loans ("NPL") totaled Baht 8.6 billion, an increase of 3.8% over 2008. NPL ratio of 4.6% remains manageable. Correspondingly, total deposits also declined by 6.6% to Baht 151.0 billion. The Bank's loan to deposit ratio of 95% is in line with the industry.

2010 Outlook and Prospects

While the worst seems to be over, the overall global economy remains highly challenging. The pace and extent of business recovery is still uncertain. Although the Asian economies are expected to perform better this year, we expect Thai consumers to continue to exercise caution in their discretionary spending and the continued suspension of the Map Ta Phut projects will have a bearing on the country's investment climate. We expect the Thai GDP to grow between 3 and 5% in 2010, barring any major political upheaval.

UOB (Thai) will continue to work closely with all our customers during these challenging times. We will continue to measure, monitor and manage all key risks with the robust mechanisms that we have put in place in the Bank in the past five years. The Bank intends to grow prudently and manage its risks and costs in 2010.

Acknowledgement

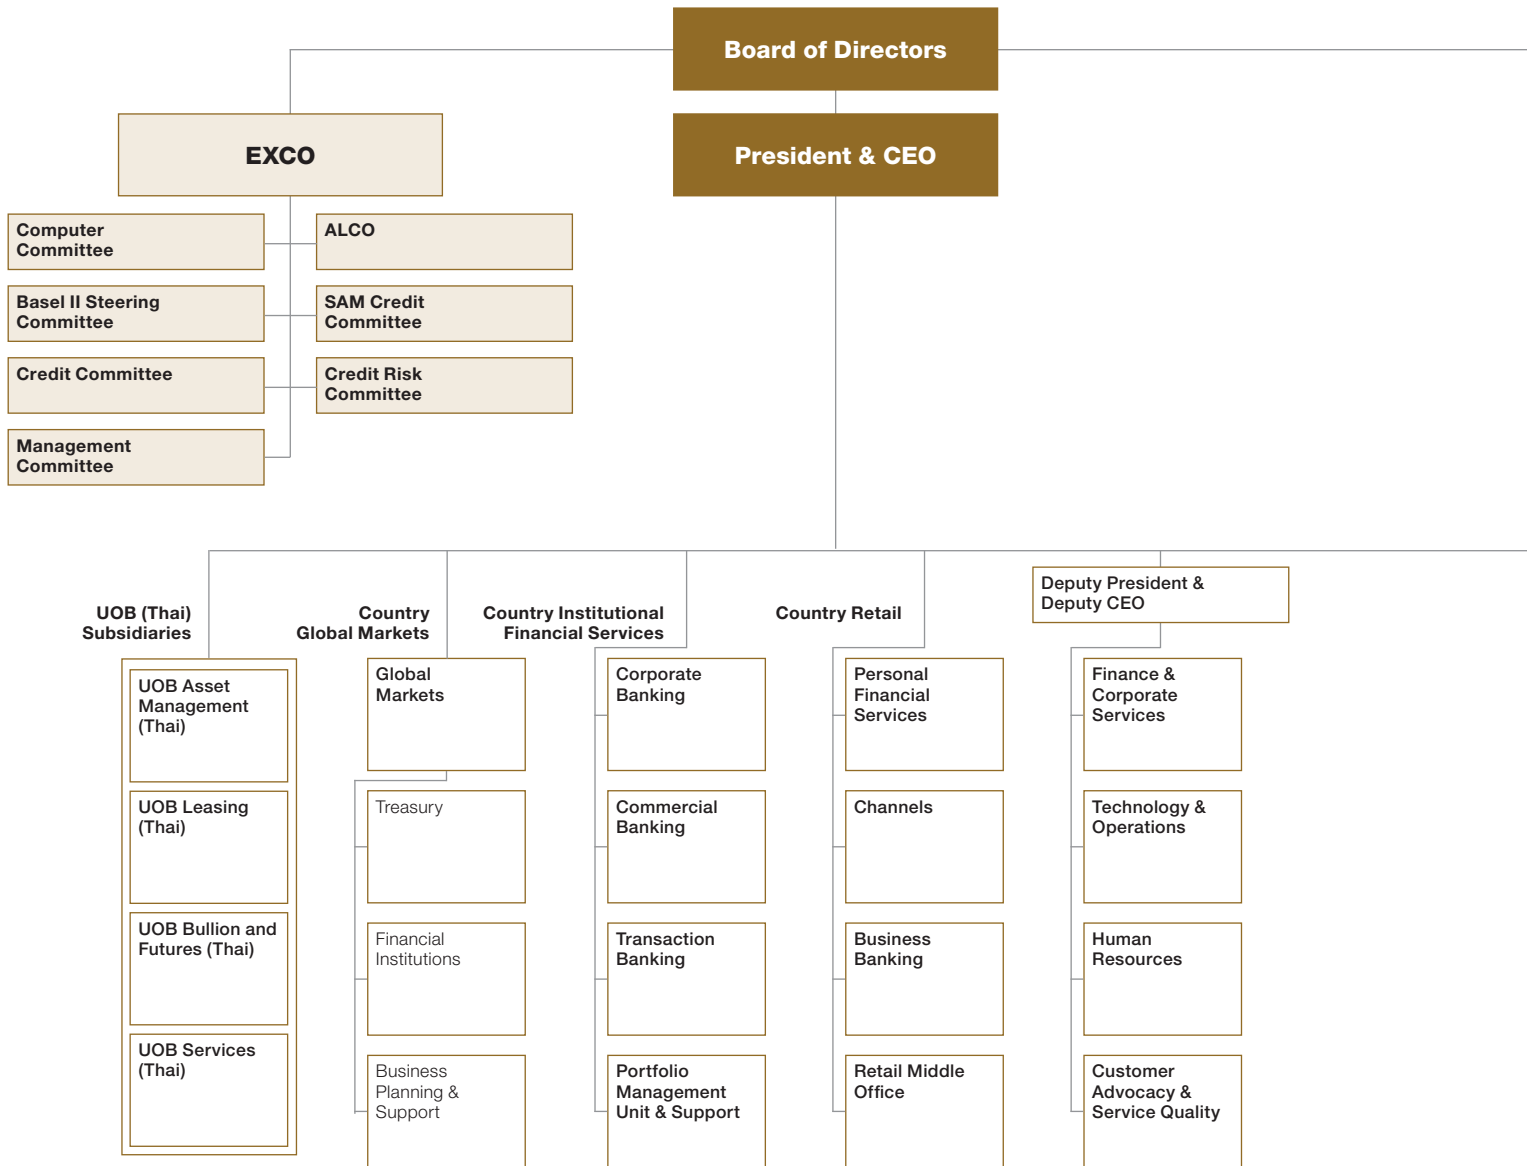

I want to take this opportunity to thank the Board of Directors for their wise counsel, the management and staff for their dedication and hard-work, and our customers for their continued support.

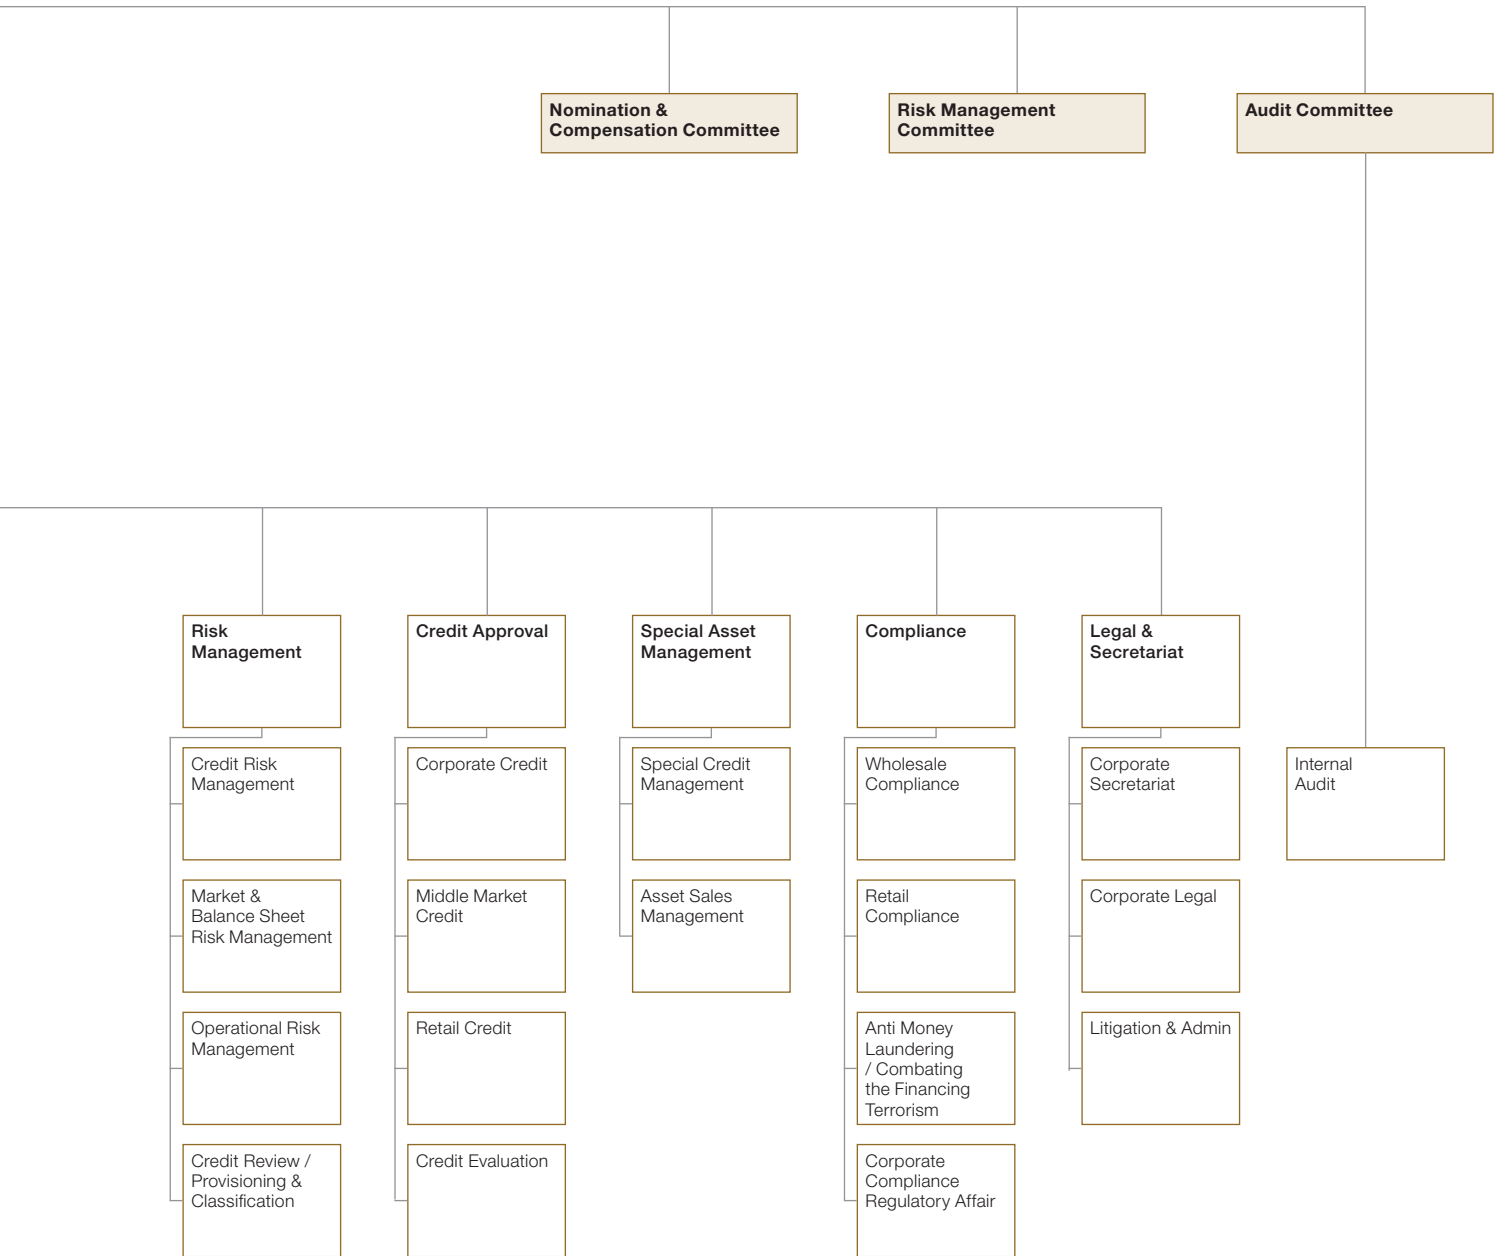

I would also like to record the Board's appreciation to Ms Susan Hwee who left the Board in November 2009, and welcome Mr Cheo Chai Hong, Executive Vice President of the UOB Group, who joined us on the same date.

Management discussion and analysis 2009

Statutory financial results

The Bank reported a net profit after tax of Baht 849 million for the year 2009, a decrease of Baht 680 million compared to the net profit after tax of Baht 1,529 million last year. The decrease in net profit after tax was mainly due to lower total income and higher provision, partly offset by lower non-interest expenses.

Summarized statutory financial results

For the year ended 31 December 2009 and 2008

Profit & Loss statements	Million baht		
	2009 Audited	2008 Restated	% change
Interest and dividend income	9,588	11,567	(17.1)
Interest expenses	2,556	3,969	(35.6)
Net income from interest and dividends	7,032	7,598	(7.5)
Non-interest income	2,423	2,840	(14.7)
Total income	9,455	10,438	(9.4)
Operating expenses	6,650	7,006	(5.1)

Key balance sheet items	Million baht		
	31 Dec. 09 Audited	31 Dec. 08 Restated	% change
Total assets	227,342	218,691	4.0
Total loans	143,970	159,312	(9.6)
NPLs	8,632	8,314	3.8
Total deposits	151,017	161,764	(6.6)

Key financial ratios (%)	change		
	31 Dec. 09 Audited	31 Dec. 08 Restated	change
Net interest income to average assets	3.15	3.53	(0.38)
Loans to deposits ratio	95.33	98.48	(3.15)
NPLs to total loans ratio	4.64	4.58	0.06
Capital adequacy ratio	21.18	18.51	2.67

Net interest income

Net interest income for 2009 was Baht 7,032 million, a decrease of Baht 566 million or 7.5% compared to the previous year, mainly due to lower net interest margin on average assets. Interest income dropped 17.1% to Baht 9,588 million, whereas interest expense dropped 35.6% to Baht 2,556 million. This was due to lower interest rates in lending and deposits compared to the previous year.

Non-interest income

Non-interest income was Baht 2,423 million, a decrease of 14.7% compared to previous year. This was mainly due to lower gains on exchange, lower fees and services income from reduced business volume, lower rental income as more properties foreclosed were sold during the year and lower gains on sales of government bonds.

Management discussion and analysis 2009

Operating expenses

The Bank's non-interest expense for 2009 was Baht 6,650 million, a decrease of 5.1% from previous year. Fees and service expenses, premises and equipment expenses, taxes and duties expenses were lower compared to previous year due mainly to lower business volume. In addition, personnel expenses were also lowered as the Bank managed its personnel requirements carefully during the year. However, the Bank set aside higher provision for properties foreclosed compared to the previous year.

Loan provision

The Bank set aside the total of Baht 1,488 million in loan loss provisions for 2009, which was Baht 159 million or 11.9% higher than provision set for the previous year. This was due to the downgrading of a few corporate accounts to NPL status in 2009 as well as higher write-offs for unsecured personal loans during the economic downturn.

Capital expenditure

Capital expenditure for 2009 totaled Baht 509 million, compared to Baht 426 million in 2008. The capital expenditure of 2009 was mainly for computer equipment, application software and the change in status of a foreclosed property to be the Bank's training center.

Dividend payment policy

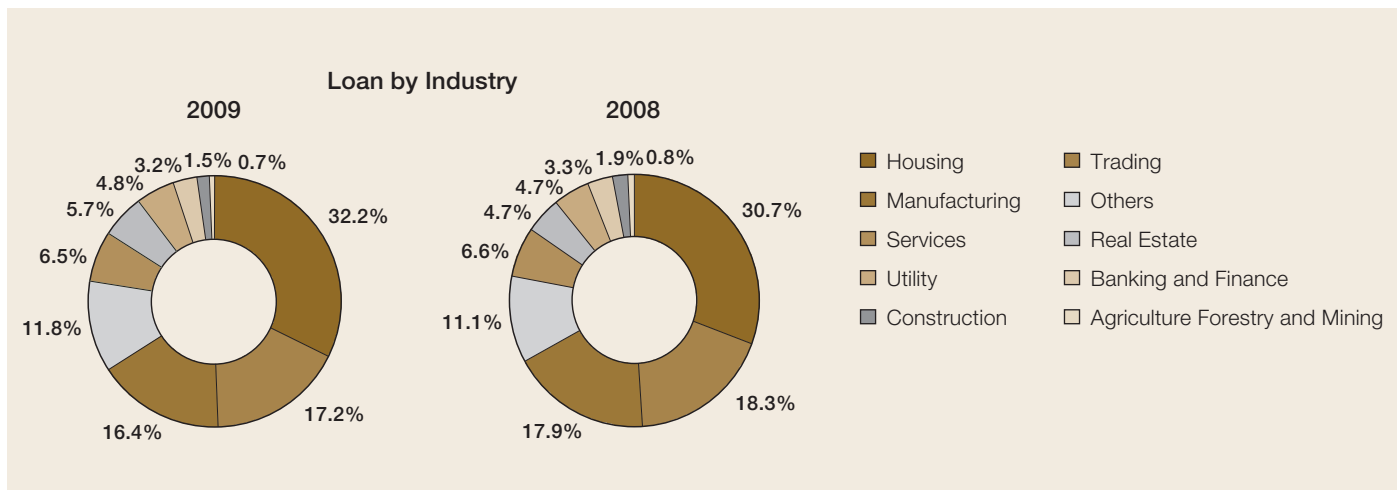

The Bank's dividend payment policy is governed by Bank of Thailand and Ministry of Commerce. The dividend payment policy is subjected to approval from annual general meeting, not exceeding 45% of net profit for the year.

Assets

The total assets of the Bank and its subsidiaries as at 31 December 2009 were Baht 227,342 million, an increase of Baht 8,651 million or 4.0% from 31 December 2008. The increase in total assets was largely from an increase in interbank and money market balances by Baht 21,327 million combined with a rise in investment in government bonds by Baht 9,829 million or 83.4% to Baht 21,609 million.

Loans portfolio

	% of total loans	
	2009	2008
Housing	32.2	30.7
Trading	17.2	18.3
Manufacturing	16.4	17.9
Others	11.8	11.1
Services	6.5	6.6
Real Estate	5.7	4.7
Utility	4.8	4.7
Banking and Finance	3.2	3.3
Construction	1.5	1.9
Agriculture Forestry and Mining	0.7	0.8
Total loans	100.0	100.0

The Bank's loans to the trading industry declined from 18.3% to 17.2%. Loans to the manufacturing industry also declined from 17.9% to 16.4%. However, proportion of housing loans increased from 30.7% to 32.2% due to new UOB Home Loan campaign launched in 2009.

Loans to top 10 customer groups

Management discussion and analysis 2009

Asset quality ratios

	2009	2008
NPLs / Total loans*	4.6	4.6
Provision doubtful accounts / NPLs	71.4	72.0
Provision for doubtful accounts / Total loans	4.3	3.8

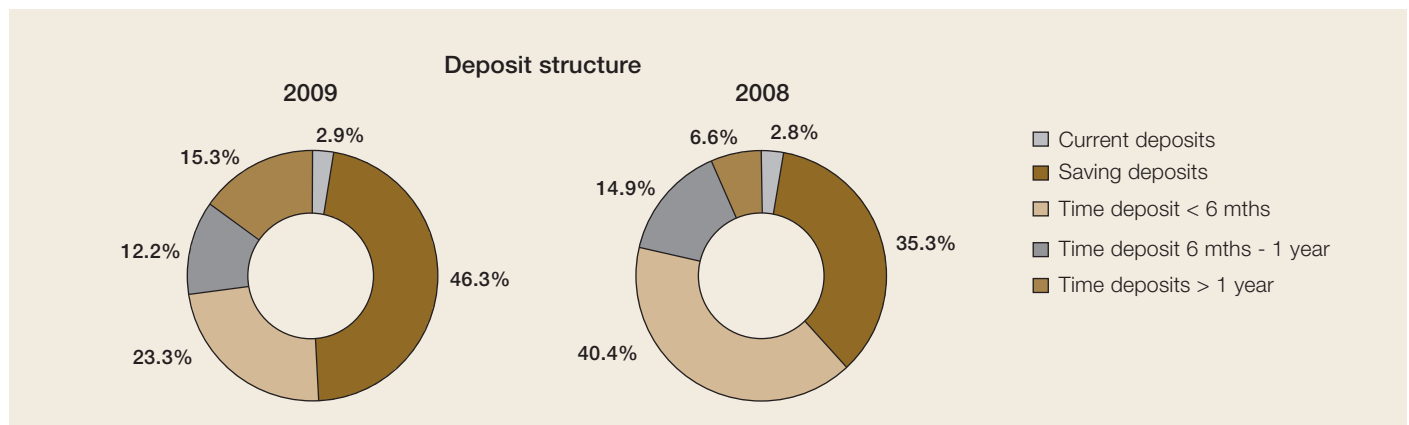

* Including interbank and money market loans

Non-performing loan management

NPL as at end-2009 amounted to Baht 8.6 billion or 4.6% of total loans compared to Baht 8.3 billion or 4.6% as at end-2008. Whilst NPL ratio was stable at 4.6%, the absolute amount of NPL as of end-2009 was Baht 0.3 billion higher than end-2008 as the Bank downgraded several accounts to NPL status in 2009. Overall, the Bank's asset quality remains good.

Deposit structure

	% to total deposits	
	2009	2008
Current deposits	2.9	2.8
Saving deposits	46.3	35.3
Time deposits	50.8	61.9
- under 6 months	23.3	40.4
- 6 months - 1 year	12.2	14.9
- over 1 year	15.3	6.6
Total	100.0	100.0

As at 31 December 2009, the Bank had total deposits and borrowings of Baht 151,607 million, a decline of 6.6% from end-2008. Total saving deposits accounted for 46.3% of total deposits, whereas fixed deposits were 50.8%. The remaining of 2.9% was in current deposits. Loans to deposits ratio was 95.3% as at end-2009 compared to 98.5% as at end-2008.

Capital funds

Capital adequacy ratios

	2009		2008	
	Million baht	%	Million baht	%
Total capital	28,347	21.18	27,132	18.51
Tier 1 capital	26,142	19.53	24,906	16.99
Tier 2 capital and others	2,205	1.65	2,226	1.52

As per Bank of Thailand's regulation, the Bank had adopted the Standardised Approach of Basel II capital framework since end-2008. Total capital adequacy ratio remained strong at 21.18% as at end-2009, an improvement over the 18.51% as at end-2008. Tier 1 capital rose to 19.53%. Tier 2 capital was 1.65% as at end-2009. Total capital adequacy and tier 1 ratios are above the minimum requirement of the Bank of Thailand's of 8.50% and 4.25%, respectively.

Report of Independent Auditor

To the Shareholders of United Overseas Bank (Thai) Public Company Limited

I have audited the accompanying consolidated balance sheets of United Overseas Bank (Thai) Public Company Limited and its subsidiaries as at 31 December 2009 and 2008, and the related consolidated statements of income, changes in shareholders' equity and cash flows for the years then ended, and the separate financial statements of United Overseas Bank (Thai) Public Company Limited for the same periods. These financial statements are the responsibility of the Bank's management as to their correctness and the completeness of the presentation. My responsibility is to express an opinion on these financial statements based on my audits.

I conducted my audits in accordance with generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements presentation. I believe that my audits provide a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of United Overseas Bank (Thai) Public Company Limited and its subsidiaries and of United Overseas Bank (Thai) Public Company Limited as at 31 December 2009 and 2008, the results of their operations, and cash flows for the years then ended in accordance with generally accepted accounting principles.

Notes to consolidated financial statements

For the years ended 31 December 2009 and 2008

1. General information

Corporate information

United Overseas Bank (Thai) Public Company Limited (“the Bank”) was incorporated as a public company under Thai Laws. Its registered head office is located at 191 South Sathon Road, Sathon, Bangkok. The Bank’s main business is commercial banking. As at 31 December 2009, the Bank conducts its business through a network of 146 domestic branches, covering all parts of Thailand, and 1 overseas branch (2008: 151 domestic branches and 1 overseas branch). Its major shareholder is United Overseas Bank Limited, a company registered in Singapore.

2. Basis of preparation

The financial statements have been prepared in accordance with accounting standards enunciated under the Accounting Profession Act B.E. 2547, except that International Accounting Standard (IAS) No.12 Income Taxes has been adopted since no related Thai Accounting Standard has yet been announced. The presentation of the financial statements has been made in compliance with the requirement of the Notification of the Bank of Thailand (“the BOT”) dated 3 August 2008, titled “Preparation and announcement of the financial statements of commercial banks and holding companies which are parent company of group of companies offering financial services”.

The financial statements in Thai language are the official statutory financial statements of the Bank. The financial statements in English language have been translated from the financial statements in Thai language.

The financial statements have been prepared on a historical cost basis except for those that have been disclosed in the Bank’s accounting policy.

3. Basis of consolidation

a) These consolidated financial statements include the financial statements of United Overseas Bank (Thai) Public Company Limited (“the Bank”) and the following subsidiaries (“the subsidiaries”):

	Business type	Country of registration	Percentage of share holdings		Percentage of total assets included in consolidated assets		Percentage of income included in consolidated income for the years ended 31 December	
			As at 31 December		As at 31 December		31 December	
			2009	2008	2009	2008	2009	2008
Subsidiaries								
UOB Leasing (Thai) Co., Ltd.	Leasing	Thailand	99.99	99.99	1.34	1.31	2.39	2.04
UOB Asset Management (Thai) Co., Ltd.	Fund Management	Thailand	99.99	99.99	0.09	0.08	2.20	2.46
UOB Bullion and Futures (Thai) Co., Ltd.	Derivatives Brokerage	Thailand	75.00	75.00	0.09	0.01	0.08	0.03
UOB Services Co., Ltd.	Debt Collection Business	Thailand	99.99	99.99	0.01	-	-	-
UOB Radanasin Public Co., Ltd.	Liquidation completed	Thailand	-	99.99	-	-	-	-

b) Subsidiaries are entities in which the Bank has control over the financial and operating policies of those entities. Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Bank obtains control, and continue to be consolidated until the date when such control ceases. The effects to the consolidated financial statements of all significant transactions between the Bank and its subsidiaries are eliminated in the consolidated financial statements, including investment in subsidiaries and share capital of subsidiaries.

c) The consolidated financial statements for the years ended 31 December 2009 and 2008 excluded the financial statements of a subsidiary company, UOB Radanasin Public Company Limited which liquidation was completed and registered with the Department of Business Development, Ministry of Commerce on 4 June 2009.

d) The financial statements of the subsidiaries are prepared for the same reporting period as the Bank, using consistent significant accounting policies.

e) The accompanying financial statements include the accounts of all branches after elimination of significant inter-branch transactions and balances.

- f) If the Bank receives shares as a result of debt restructuring of a borrower, which causes the Bank to hold more than 20 or 50% of the shares of such company, the Bank will not treat that investee company as an associated or a subsidiary company, but will treat it as general investments since the Bank intends to hold such shares only temporarily.
- g) The consolidated financial statements do not include the financial statements of unit trusts in which the Bank holds more than 50 percent of their issued units since the Bank has no control over their financial and operating policies.
- h) The separate financial statements, which present investments in subsidiaries and associates presented under the cost method, have been prepared solely for the benefit of the public.
- i) Minority interests represent the portion of net income or loss and net assets of the subsidiaries that are not held by the Bank and are presented separately in the consolidated income statement and within equity in the consolidated balance sheet.

4. Adoption of new accounting standards

In June 2009, the Federation of Accounting Professions issued Notification No. 12/2552, assigning new numbers to Thai Accounting Standards that match the corresponding International Accounting Standards. The numbers of Thai Accounting Standards as referred to these financial statements reflect such change.

The Federation of Accounting Professions has issued Notification No. 86/2551 and 16/2552, mandating the use of new accounting standards, financial reporting standard and accounting treatment guidance as follows.

4.1 Accounting standards, financial reporting standard and accounting treatment guidance which are effective for the current year

- i) Framework for the Preparation and Presentation of Financial Statements (revised 2007)
- ii) TAS 36 (revised 2007) - Impairment of Assets
- iii) TFRS 5 (revised 2007) - Non-current Assets Held for Sale and Discontinued Operations
- iv) Accounting Treatment Guidance for Leasehold Right
- v) Accounting Treatment Guidance for Business Combination under Common Control

These accounting standards, financial reporting standard and accounting treatment guidance became effective for the financial statements for fiscal years beginning on or after 1 January 2009. The management has assessed the effect of these standards and believes that TFRS 5 (revised 2007) and Accounting Treatment Guidance for Business Combination under Common Control are not relevant to the business of the Bank, while Framework for Preparation and Presentation of Financial Statements (revised 2007), TAS 36 (revised 2007) and Accounting Treatment Guidance for leasehold right do not have any significant impact on the financial statements for the current year.

4.2 Accounting standards which are not effective for the current year

		<u>Effective date</u>
TAS 20	- Accounting for Government Grants and Disclosure of Government Assistance	1 January 2012
TAS 24 (revised 2007)	- Related Party Disclosures	1 January 2011
TAS 40	- Investment Property	1 January 2011

However, entities are allowed to adopt TAS 24 (revised 2007) and TAS 40 before the effective date.

The management of the Bank has assessed the effect of these standards and believes that TAS 20 is not relevant to the business of the Bank and is still evaluating the effect of TAS 24 (revised 2007) and TAS 40 on the financial statements for the year in which they are initially applied and has not been able to reach a conclusion as to such effect.

4.3 Adoption of deferred tax accounting

During the current year, the Bank adopted deferred tax accounting, in compliance with International Accounting Standard (IAS) No.12, Income Taxes (revised 1996) which is not mandatory in Thailand for the current year. In addition, the accounting policies of the subsidiaries and associated company presented in the consolidated financial statements have also been changed to comply with the Bank's accounting policies.

In this regard, the Bank has restated the previous year's financial statements for comparative purposes. The change has the effect of increasing net income in the separate income statements for the years ended 31 December 2009 by Baht 407 million, Baht 0.16 per share (2008: increased by Baht 163 million, Baht 0.07 per share). The change also has the effect of increasing net income in the consolidated income statements for the years ended 31 December 2009 by Baht 416 million, Baht 0.17 per share (2008: increased by Baht 156 million, Baht 0.06 per share). The cumulative effect of the change in accounting policy has been presented under the heading of "Cumulative effect of the change in accounting policy of deferred tax accounting" in the statements of changes in shareholders' equity.

5. Significant accounting policies

Significant accounting policies adopted by the Bank and its subsidiaries are summarised below.

5.1 Revenue recognition

(a) Interest and discount on loans

The Bank recognises interest on loans as income on an accrual basis. In accordance with the BOT's regulation, interest in arrears for more than three months from the due date, regardless of whether the loans are covered by collateral, is not accrued as interest income but is instead recognised as income when received. In addition, interest accrued in arrears for three months is reversed against interest income.

Interest income from loans under litigation is recognised on a cash basis.

(b) Revenue recognition of subsidiaries

Hire purchase and financial lease income recognition

Interest on hire-purchase receivables and financial lease receivable under hire purchase agreements and financial lease agreements with effective dates on or after 1 January 2008 are recognised over the installment period, using the effective interest rate and income is recognised as the installments fall due irrespective of actual collections.

For interest on hire-purchase receivables and financial lease receivables under hire purchase agreements and financial lease agreements with effective dates before 1 January 2008, a subsidiary company has chosen to adopt the following methods:

- For short-term lease agreement (3-4 years), a subsidiary company applies the existing sum-of-the-years'-digits method until the lease expires.
- For long-term lease agreements, a subsidiary company uses the outstanding balances of the pre-existing finance leases as of 1 January 2008 as the beginning balances and apply the effective interest rate method over the remainder of the lease period.

Rental income from operating lease contracts and car rent are recognised based on the term of lease except for receivables overdue more than three months, which are recognised on a cash basis.

Revenues from factoring are recognised on an accrual basis except for overdue receivables more than three months, which are recognised on a cash basis.

Interest income from loans under legal/litigation process is recognised on a cash basis.

Management fees and registrar fees are calculated as a percentage of the net asset value of the funds managed by a subsidiary or fixed amount as mentioned in prospectus and recognised as income on an accrual basis.

5.2 Expenses recognition

The Bank and its subsidiaries recognise expenses on an accrual basis.

5.3 Cash

Cash is that amount included in the balance sheet under the caption of cash, and consist of cash on hand and cheques in transit.

5.4 Investments

The Bank and its subsidiaries classify investments in all types of debt securities and marketable equity securities as either trading securities, available-for-sale securities, or held-to-maturity securities, and classify non-marketable equity securities as general investment or investments in subsidiaries and associated companies.

Investments classified as trading securities are stated at fair value. Unrealised gains or losses arising on the revaluation of trading securities are reflected in the income statement.

Investments classified as available-for-sale securities are stated at fair value. Unrealised gains or losses arising on the revaluation of available-for-sale securities are shown as a separate component of shareholders' equity until the securities are sold. Loss on impairment is charged to the income statement.

Investments in debt securities held-to-maturity are stated at amortised cost net of allowance for impairment. Any loss from impairment is charged to the income statement.

General investments, other than investments in subsidiaries and associated companies, are stated at cost net of allowance for impairment. Loss on impairment is charged to the income statement.

Purchases and sales of investments are recognised on settlement date.

Realised gains or losses resulting from the disposal of securities are recognised in the income statement by using the weighted average cost calculation method.

Interest income from debt securities is recognised on an accrual basis. Premiums and discounts arising on the acquisition of securities are amortised or accreted to interest income in the income statement based on effective yield rate over the term of the securities.

Income from equity investments and other non-fixed income investments is recognised as dividend income when the right to receive the dividend is established.

Fair values of securities are calculated on the following bases:

- (i) For Government securities and state enterprises securities, fair values are calculated by using the BOT formula, based on the average latest bidding price posted on the Thai Bond Market Association.
- (ii) For listed equity securities, fair value is the last bid price quoted in The Stock Exchange of Thailand on the last business day of the year.
- (iii) For unit trust, fair value is the Net Assets Value (NAV) as at the end of the year.
- (iv) For private enterprises debt securities, the average latest bidding price of the Thai Bond Market Association are used as fair values. In the absence of such prices, fair values are determined by applying the aforementioned the BOT yield curve adjusted for risk in accordance with the criteria established by the Bank of Thailand.

5.5 Investments in subsidiaries and associated company

Separate financial statements

Investments in subsidiaries and associated company are stated at cost net of allowance for impairment (if any). Loss on impairment is charged to the income statement.

Consolidated financial statements

Investments in associated company is recorded using the equity method. Under this method, investments are initially recorded at the acquisition cost and are adjusted to reflect the attributable share of the profits or losses from the operations of the associated company, in proportion to the investment.

5.6 Loans

Loans include overdrafts, term-loans, trade bills, hire-purchase and financial lease receivables and other loans. All items categorised under loans (except for overdrafts) are disclosed as principal amount outstanding net off unearned discounts received in advance, with accrued interest income added as a single line item for all the instruments together.

Overdrafts are stated at the drawn amounts together with any accrued interest.

Discounts received in advance in respect of bills purchased and other unearned interest income are recognised on an accrual basis over the period to maturity of the bills.

5.7 Allowance for doubtful accounts

The Bank set provision at 1% and 2% of the loan balance (excluding accrued interest receivable) net of collateral value for normal (including restructured receivables) loans and special mention loans, respectively, as required by the BOT guidelines.

For non-performing loans and receivables which are classified as substandard, doubtful and doubtful of loss, the Bank records allowance for doubtful accounts at 100% of the debt balance remaining after deducting the present value of expected future cash inflows from debt collection or from collateral disposal, with the discount interest rate and the period of collateral disposal being set with reference to the BOT's Notifications, in accordance with the BOT's guidelines issued on 3 August 2008. For unsecured consumer loan, the collective approach is applied based on historical loss experience of each consumer group.

Bad debts are written off during the period that the Bank considers they are uncollectible as approved by the Executive Committee and are deducted from the allowance for doubtful accounts. All bad debt recovered are recognised as income on cash basis which is presented as an offset to bad debts and doubtful accounts in the income statement.

The Bank writes off unsecured consumer loans that are overdue more than 180 days. Those unsecured consumer loans comprise of credit card receivables and other unsecured personal loans.

5.8 Troubled debt restructuring

The Bank restructures loans by means of transferring assets, transferring equity or modifying the terms of the loan.

Loans which have been restructured through a modification of terms are stated at the present value of estimated future receivable cash flows using discount rates equivalent to the market interest rates applicable at the time of the restructuring.

The difference between the fair value of the loan as at the restructuring date and the previous book value is accounted for as revaluation allowance for debt restructuring and amortised to the income statement as interest income based on the amount received over the remaining period of the restructuring agreement.

5.9 Properties foreclosed

Properties foreclosed of the Bank and a subsidiary are stated at the lower of cost and net realisable value. Net realisable value is determined by using the latest appraisal value, considering selling expenses in accordance with the BOT's guidelines. Properties foreclosed which have been received as a result of an asset swap are recorded at the lower of the legally claimable value of the loan or the net realisable value of the foreclosed property.

Losses on impairment are charged to the income statement. Gains or losses on the sale of properties foreclosed are recognised only when such properties are sold.

5.10 Premises and equipment and depreciation

Land is stated at cost or reappraised value. Premises is stated at cost or reappraised value less accumulated depreciation and allowance for impairment (if any). Equipment is stated at cost less accumulated depreciation.

Depreciation is calculated by reference to their cost or reappraised value on a straight-line basis over the following estimated useful lives:

Premises	-	50 years
Equipment	-	5 or 10 years

No depreciation is determined for land and assets under installation.

Premises and equipment are initially recorded at cost. Land and premises are however subsequently revalued by the independent appraisers to their fair value in accordance with the guidelines announced by the BOT. The Bank's policy is to revalue these assets every 5 years in order that the book value of these assets on the balance sheet dates does not differ materially from their fair value.

Differences arising from revaluation are dealt with in the financial statements as follows:

- When the Bank's carrying amount of asset is increased as a result of a revaluation, the increase is credited directly to equity under the heading of "Revaluation surplus on fixed assets". However, a revaluation increase will be recognised as income to the extent that it reverses a revaluation decrease of the same asset previously recognised as an expense.

- When the Bank's carrying amount of asset is decreased as a result of a revaluation, the decrease is recognised as an expense in the income statements. However, a revaluation decrease is to be charged directly against the related "Revaluation surplus on fixed assets" to the extent that the decrease does not exceed the amount held in the "Revaluation surplus on fixed assets" in respect of those same assets. Any excess amount is to be recognised as an expense in the income statement.

Amortisation of the revaluation surplus on assets is transferred directly to retained earnings (deficit).

The revaluation surplus can neither be offset against deficit nor used for dividend payment.

5.11 Leasehold rights

Leasehold rights are stated at cost less accumulated amortisation under the heading of "Other assets". Leasehold rights are amortised on a straight-line basis over the lease periods and the amortisation amounts are recognised as expenses in statements of income.

5.12 Intangible assets and amortisation

Intangible assets are carried at cost less accumulated amortization and an accumulated impairment losses.

Intangible assets with finite lives are amortised on a systematic basis over the useful economic useful life and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method of such intangible assets are reviewed at least at each financial year end. The amortisation expense is charged to the income statement.

A summary of the intangible assets with finite useful lives is as follows.

	<u>Useful lives</u>
Application softwares	5 or 10 years
Others	5 years

5.13 Provisions - other liabilities

Provisions are recognised when the Bank has a present obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation. In the event that no independent market value can be obtained, then an estimate is assessed.

5.14 Related party transactions

Related parties comprise enterprises and individuals that control or are controlled by the Bank and its subsidiaries, whether directly or indirectly, or which are under common control with the Bank and its subsidiaries.

They also include associated company and individuals which directly or indirectly own a voting interest in the Bank and its subsidiaries that gives them significant influence over the Bank and its subsidiaries, key management personnel, directors and officers with authority in the planning and direction of the Bank's and its subsidiaries operations, together with close family members of such persons and companies which are controlled and influenced by them, whether directly or indirectly.

5.15 Employee benefits

Salaries, wages, bonuses and contributions to the social security fund and provident fund are recognised as expenses when incurred.

The Bank and its employees established the provident funds under the Provident Fund Act B.E. 2530. According to the Fund's regulations, every employee, after the probation period, is entitled to apply for membership. The employees contribute to the fund at the rate of 2% or 5% of basic salary and the Bank contributes to the fund at the rate of 5% of basic salary. The employees are entitled to the benefits upon termination of employment status except when the terminated employee has violated the rules of the Bank.

The Bank's subsidiaries and their employees also established their provident funds under the Provident Fund Act B.E. 2530. The Bank's subsidiaries and their employees contribute to the funds at the same rate of between 2% to 10% of basic salary depending upon the number of years of services of each employee. The funds will be paid to employees upon termination in accordance with the rules of the funds.

The funds set up by the Bank and its subsidiaries are managed independently by UOB Asset Management (Thai) Co., Ltd. except for the fund set up by UOB Asset Management (Thai) Co., Ltd., which is managed by Bualuang Securities Public Co., Ltd. Therefore, these funds do not appear in the consolidated or separate balance sheets of the Bank and the relevant subsidiaries.

The Bank also has long-term employment benefit scheme for employees who have employment period of not less than 15 years only for the Bank of Asia Public Co., Ltd.'s employees who joined the Bank before 16 May 2005, the benefit being based on the latest month's salary and the years of service. Employees will receive half of this long-term employment benefit when they resign or will receive it in full when they retire. The provision for this scheme is recorded as expenses in the income statements.

5.16 Contributions to the Deposit Protection Agency

Contributions to the Deposit Protection Agency are recorded as expenses for the period on an accrual basis.

5.17 Income tax

a) Current tax

The Bank calculates corporate income tax in accordance with the Revenue Code.

b) Deferred Tax

Deferred tax is calculated based on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts, by using the enacted tax rate at the balance sheet date.

The Bank recognises deferred tax liabilities for taxable temporary differences and recognises deferred tax assets for deductible temporary differences and tax losses carried forward. The Bank recognises deferred tax assets to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilized.

At each balance sheet date, the Bank reviews and reduces the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Bank records deferred tax directly to equity if the tax relates to items that are recorded directly to equity.

5.18 Translation of foreign currency

Transactions in foreign currencies are translated into Baht at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies and off-balance sheet items, which related to forward exchange contracts and currency swap contracts, outstanding on the balance sheet date, have been translated into Baht at the exchange rate ruling on the balance sheet date announced by the Bank of Thailand.

All foreign exchange gains or losses are recognised in the income statement.

5.19 Financial derivatives

Financial derivative contracts are recorded as off-balance sheet items and the changes in fair value are recorded in the income statements.

Outstanding financial derivative contracts are valued at fair value. At the balance sheet date, the unrealised gains or losses on outstanding financial derivative contracts, are presented on a gross basis in the balance sheet.

5.20 Offsetting

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Bank and its subsidiaries have a legally enforceable right to set off the recognised amount and the transactions are intended to be settled on a net basis.

6. Significant accounting judgments and estimates

The preparation of financial statements in conformity with generally accepted accounting principles at times requires management to make subjective judgments and estimates regarding matters that are inherently uncertain. However, the use of different estimates and assumptions could affect the amounts of accounting estimate. These judgments and estimates affect reported amounts and disclosures and actual results could differ. The significant accounting judgments and estimates are as follow:

Allowance for loan losses

Allowances for loan losses are intended to adjust the value of loans and receivables for probable credit losses. The management uses judgment to establish reserves for estimated losses on outstanding loans when there is any doubt about the borrower's capacity to repay the principal and/or the interest. The allowances for loan losses are determined through a combination of specific reviews, statistical modeling and estimates, taking into account change in the value of collateral and current economic conditions.

Fair value of financial instruments

In determining the fair value of financial instruments that are not actively traded and for which quoted market prices are not readily available, the management exercised judgment, using a variety of valuation techniques and models. The input to these models is taken from observable markets, and includes consideration of liquidity, correlation and longer-term volatility of financial instruments.

Impairment of equity investments

The Bank treats equity investments as impaired when there has been a significant or prolonged decline in the fair value below its cost or where other objective evidence of impairment exists. The determination of what is "significant" or "prolonged" requires judgment.

Recognition and derecognition of assets and liabilities

In considering whether to recognise or to derecognise assets or liabilities, the management is required to make judgment on whether risk and rewards of those assets or liabilities have been transferred, based on their best knowledge of the current events and arrangements.

Retirement benefits

Retirement benefit costs are estimated based on assumptions. Inherent within these calculations are assumptions as to number of employees, salary and number of working years of each employee.

Goodwill and intangible assets

The initial recognition and measurement of goodwill and other intangible assets, and subsequent impairment testing, require management to make estimates of cash flows to be generated by the asset or the cash generating units and to choose a suitable discount rate in order to calculate the present value of those cash flows.

Litigation

The Bank has contingent liabilities as a result of litigation. The Bank's management has used judgment to assess of the results of the litigation. The estimated loss has been recorded under contingent liabilities as at the balance sheet date.

Leases

In determining whether a lease is to be classified as an operating lease or financial lease, management is required to use judgment regarding whether significant risk and rewards of ownership of the leased asset has been transferred, taking into consideration terms and conditions of the arrangement.

Premises and equipment/Depreciation

In determining depreciation of plant and equipment, the management is required to make estimates of the useful lives and salvage values of the Bank's premises and equipment and to review estimate useful lives and salvage values when there are any changes.

The Bank and its subsidiaries measure land and buildings at revalued amounts. Fair value from revaluation is determined by independent valuer using market approach for land and depreciated replacement cost approach for buildings. Such valuation is based on certain assumptions and estimates

Allowance for impairment of property foreclosed

The Bank assesses allowance for impairment of property foreclosed when net realisable value is below book value. The management uses judgment in estimating impairment loss, taking into account changes in the value of asset, appraisal value, the type and quality of asset, how long it is expected to take to dispose of the asset and changes in economic circumstances.

Profit and loss sharing from transfer non-performing loan

In calculating profits or losses arising from the management of non-performing loans transferred to the Thai Asset Management Corporation (TAMC), the Bank uses projections of the amounts expect to be received from the debtors, from collateral value or from guarantors. The management consider these assumptions to be appropriate given the currently available information and current situation.

Deferred tax assets

Deferred tax assets are recognised in respect of temporary differences only to the extent that it is probable that taxable profit will be available against which these differences can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future profits.

7. Regulatory rule related to capital fund

According to the BOT's notification Sor Nor Sor 25/2552, commercial banks are required to disclose certain additional capital information for position of 31 December 2009. The Bank will disclose this mandatory information at its website (www.uob.co.th) by end-April 2010.

Present value of minimum lease payments receivable	1,155	1,408	-	48	2,611
Allowance for doubtful accounts					94

* After deduction of commission and deferred initial direct costs of hire purchase (if any)

(Unit: Million Baht)

	As at 31 December 2008				Total
	Amounts due under lease agreement				
	Less than 1 year	1-5 years	Over 5 years	Non performing loans	
Gross investment in the lease	1,254	1,347	-	75	2,676
Unearned finance income*	(108)	(117)	-	(6)	(231)
Present value of minimum lease payments receivable	1,146	1,230	-	69	2,445
Allowance for doubtful accounts					98

* After deduction of commission and deferred initial direct costs of hire purchase (if any)

11.7 Non-accrual loans

The Bank had non-accrual loans, according to the Bank of Thailand's criteria (NPLs and restructured NPLs under curing period) as follows:

	(Unit: Million Baht)	
	Separate financial statements	
	As at 31 December	
	2009	2008
Non-accrual loans (principal only)	8,632	8,314
Percentage of total loans*	4.64	4.58

* Including interbank and money market loans

The outstanding as at 31 December 2009 included loans to financial institutions amounting to Baht 117 million which are presented in interbank and money market items (2008: Baht 600 million).

As at 31 December 2009, a subsidiary had the non-accrual loans in accordance with the subsidiaries' accounting policy as detailed in note 5.1 amounting to Baht 169 million (2008: Baht 190 million) which represented 5.47% of its total loans (2008: 6.65%).

11.8 Troubled debt restructuring

During the years ended 31 December 2009 and 2008, the Bank entered into troubled debt restructuring agreements with debtors. The number of debtors and their debt balances (including recorded accrued interest receivables) before restructuring can be summarised below.

	(Unit: Million Baht)	
	Separate financial statements	
	For the years ended 31 December	
	2009	2008
Debt balances before restructuring	2,637	1,213
Total number of customers	14,313	8,240

Detail of the restructured debtors for the years ended 31 December 2009 and 2008 referred to above can be classified by method of troubled debt restructuring as follows:

(Unit: Million Baht)

Type of restructuring	Separate financial statement				
	For the year ended 31 December 2009				
	Number of customers subject to restructuring	Debt balances before restructuring	Type of assets	Fair value of assets	Debt balances after restructuring
Asset swap for settlement	44	207	Cash	207	-
Modification of terms	14,264	1,797	-	-	1,797
Transfer of assets and modification of terms	5	633	Cash/ Common stock	346	269
Total	14,313	2,637		553	2,066

(Unit: Million Baht)

Type of restructuring	Separate financial statement				
	For the year ended 31 December 2008				
	Number of customers subject to restructuring	Debt balances before restructuring	Type of assets	Fair value of assets	Debt balances after restructuring
Asset swap for settlement	2	9	Cash	9	-
Modification of terms	8,238	1,204	-	-	1,204
Total	8,240	1,213		9	1,204

The Bank recorded losses on restructuring for the year in relation to certain particular customers as utilisation of allowance for doubtful accounts rather than charging to the income statements for the period since the Bank had already fully provided allowance for those loans.

The debts restructured by means of modification of the term of repayment referred to above during the years ended 31 December 2009 and 2008 can be classified by the term of repayment under the restructuring agreement as follows:

Term of repayment according to the restructuring agreements:	Separate financial statement		
	For the year ended 31 December 2009		
	Number of debtors	Debt balances (Million Baht)	
Before restructuring		After restructuring	
Not more than 5 years	14,033	2,230	1,866
5-10 years	36	83	83
10-15 years	39	31	31
More than 15 years	161	86	86
Total	14,269	2,430	2,066

	Separate financial statement		
	For the year ended 31 December 2008		
	Number of debtors	Debt balances (Million Baht)	
Before restructuring		After restructuring	
Term of repayment according to the restructuring agreements:			
Not more than 5 years	8,159	1,100	1,100
5-10 years	26	25	25
10-15 years	18	21	21
More than 15 years	35	58	58
Total	8,238	1,204	1,204

As at 31 December 2009 and 2008, the troubled debtors restructuring for which the Bank completed the restructuring can be summarised as follows:

	(Unit: Million Baht)	
	Separate financial statements	
	Number of debtors	Debt balances after restructuring
Balance of restructured debtors as at 31 December 2009	19,017	4,883
Balance of restructured debtors as at 31 December 2008	11,102	3,981

As at 31 December 2009, the Bank has committed additional funds to restructured debtors amounting to Baht 226 million (2008: Baht 202 million).

11.9 Transfer of Assets to the Thai Asset Management Corporation (TAMC)

On 12 October 2001, the Bank entered into an agreement with the Thai Asset Management Corporation (TAMC) to transfer non-performing loans in accordance with the Emergency Decree on the Thai Asset Management Corporation B.E. 2544. Under the agreement, the Bank will receive a ten-year non-transferable promissory note availed by the Financial Institutions Development Fund, which bore interest at a rate based on the quarterly average deposit rate of the 5 major Thai commercial banks payable annually on the last working day of the year. The face value of the promissory note will be determined based on the lower of (a) the collateral value or (b) the net book value of the loans including three months accrued interest receivable as determined by the TAMC.

In accordance with the Emergency Decree on the Thai Asset Management Corporation B.E. 2544, the TAMC and the Bank will jointly be responsible for any profits or losses arising from managing the impaired assets in accordance with the conditions specified in the agreement at the end of the fifth year and at the end of the tenth year commencing 1 July 2001. The calculation of such profits or losses shall take into consideration the cost of transfer and all operating expenses of the TAMC, including interest on the promissory note. In the event that the TAMC incurs losses on the impaired assets transferred to it by the Bank, the Bank will be responsible for the first portion of losses, not exceeding 20% of the transfer price. The second portion of losses, not exceeding 20% of the transfer price, will be equally shared between the TAMC and the Bank. The remaining losses will be absorbed by the TAMC. In the event that the TAMC makes profits on the impaired assets transferred to it by the Bank, the first portion of profits, not exceeding 20% of the transfer price, will be equally shared between the TAMC and the Bank. Should there be any profits remaining, the Bank is entitled to the remaining profits up to an amount not exceeding the sum of the book value of the assets transferred less the transfer price and the Bank's share of the first portion of the profits.

On 20 May 2004, the TAMC issued a letter to the Bank informing that it was reviewing whether to reduce the value of machinery and inventory which had been pledged as collateral relating to a major debtor. The receivable relating to this debtor was one of the assets transferred to the TAMC in October 2001. The letter argues that, as the pledged machinery and inventory was never moved to the location of the pledgee, the pledge agreement had been made with no intention of actual obligation and, as such, was invalid.

Based on legal advice received from independent legal counsel, the Bank's management assessed as remote, the possibility that the Bank will have to accept a reduction in the value of the promissory note from the TAMC because of the TAMC's contention that the above pledge of assets was invalid. As such, the Bank expected no loss, as a result of that mentioned matter.

On 30 June 2006, the Bank received a letter from TAMC informing that TAMC will not give value to such machinery, given that those assets were not valid collateral and asks the Bank to make adjustment to the original list of assets transferred by reducing the value of the pledged collateral and hence the transfer value of such debtor totaling Baht 1,660 million. However, the Bank's Management does not agree with TAMC's position. The Bank has written to the TAMC on 31 July 2006 to confirm that the original transfer value is correct.

In addition, the Bank also received TAMC's letter dated 10 July 2006 and 7 December 2006 requesting the Bank to review the value of collateral of the transferred non-performing loans which are leasehold rights and whether the Bank's right over the leasehold rights are valid. If the Bank's legal right over the leasehold rights are invalid, the Bank is requested to adjust the collateral value and its transferred price amounting to Baht 5.4 million. The Bank's Management has confirmed the Bank's right over such collateral at the transfer date and therefore maintained the transfer price as previously reported as correct.

On 28 November 2006, the Bank received a TAMC loss sharing report for the end of the first 5 - year period, which the Bank was required to inform TAMC if any disputes arose from such report. The Bank has responded to the TAMC on the loss sharing report to TAMC on 15 January 2007, which included the confirmation of original transfer value as mentioned in the two preceding paragraphs.

On 15 October 2007, the Bank filed a law suit against TAMC regarding to the above matter. On 12 March 2009, the Court of First Instance judged in favor of the Bank. Currently, the case is under the Court of Appeal process.

The gross book value (before deduction of allowance for doubtful accounts) of non-performing loans transferred to TAMC was Baht 10,582 million, with the total transfer price based on the lower of collateral value or net book value of loans and accrued interest receivable totaling of Baht 6,399 million, of which included the value of collaterals as detailed above. Against this, the Bank has provided a provision for contingent loss from the gain/loss sharing from managing the impaired assets totaling of Baht 2,191 million.

As at 31 December 2009, the outstanding of TAMC's promissory note (before the price adjustment as informed according to TAMC's letter as mentioned above) was Baht 2,905 million (2008: Baht 3,261 million). During the year ended 31 December 2009, the Bank received a payment from TAMC for a principal and interest amounting to Baht 356 million and Baht 23 million, respectively (2008: principal of Baht 464 million and interest of Baht 6 million, respectively).

12. Allowance for doubtful accounts

(Unit: Million Baht)

	Separate financial statement						
	For the year ended 31 December 2009

As at 31 December 2009 and 2008, the allowance for doubtful accounts of a subsidiary is as follows:

(Unit: Million Baht)

	For the years ended 31 December	
	2009	2008
	Beginning balance	222
Doubtful accounts	44	40
Bad debt written off	(45)	(8)
Ending balance	221	222

13. Properties foreclosed

Properties foreclosed represent properties from debtors as a result of debt restructuring or properties obtained as a result of a successful bid for the mortgaged assets of debtors at auction.

Under the debt restructuring agreements, in cases where the debtors restructure their debts by means of a debt/asset swap, the Bank grants buy-back options or first refusal rights to certain debtors for a certain period, at prices as agreed in the debt restructuring agreements. The buy-back prices are normally agreed to be the transfer prices of the properties on the restructuring dates or plus interest.

Under Bank of Thailand rules, the commercial banks are also required to treat owned closed branch's premises as "Properties foreclosed".

As at 31 December 2009 and 2008, the details of properties foreclosed are as follows:

(Unit: Million Baht)

Consolidated financial statement					
For the year ended 31 December 2009

The Bank's land and buildings were last appraised in the year 2007 by independent appraisers. The reappraisal approaches are as follow:

Land	-	Fair market approach
Premises	-	Depreciated replacement cost

Difference arising from revaluation is recorded in the Bank's financial statement in accordance with the accounting policy as detailed in note 5.10 to financial statements.

As at 31 December 2009, certain premises and equipment items of the Bank and its subsidiaries have been fully depreciated but are still in use. The original cost, before deducting accumulated depreciation, of those assets amounted to Baht 1,591 million (2008: Baht 1,403 million). The Bank only: Baht 1,567 million (2008: Baht 1,372 million).

15. Intangible assets

As at 31 December 2009 and 2008, the intangible assets are as follows:

24. Share capital

At the Extraordinary General Meeting No. 1/2007 held on 30 November 2007, the Bank's shareholders have approved the following actions for the Bank's share capital restructuring.

- (1) To decrease of the registered and paid-up share capital of the Bank from Baht 82,171 million to Baht 22,597 million by way of reducing the number of the Bank's shares by 72.50% of all the Bank's shares sold or by 5,957,370,070 shares, at the par value of Baht 10 per share, pro-rata to the number of shares held by each shareholder. The shares remaining as a result of the decrease of shares will be 2,259,692,096 shares, at the par value of Baht 10 per share. The reduced registered and paid-up capital as a result of the reduction of the number of shares will eliminate the discount on shares and reduce the Bank's retained loss.
- (2) To increase of the registered share capital of the Bank from Baht 22,597 million to Baht 24,857 million by way of issuing 225,969,209 new ordinary shares at a par value of Baht 10 per share.
- (3) To allot allocation of 225,969,209 new ordinary shares at a par value of Baht 10 per share and offer them to the existing shareholders by pro-rata to the number of shares held by each shareholder at the ratio of 1 new share to every 10 existing shares, at the price of Baht 10 per share.
- (4) To allot the remaining non-subscription shares to United Overseas Bank Limited Singapore at the price of Baht 10 per share.
- (5) Approve the transfer of reserve funds to eliminate the retained losses.

The shareholders approve the transfer of reserve funds to eliminate the retained losses as follows:

	(Unit: Million Baht)
1. Other reserve	72
2. Statutory reserve	367
3. Premium reserve	4,449
	4,888

The Bank has already registered to decrease its registered and paid-up capital and also registered to increase its registered share capital with the Ministry of Commerce in accordance with the above approvals on 15 February 2008 and 18 February 2008, respectively.

The Bank has already registered to increase its registered and paid-up share capital from Baht 22,597 million to Baht 24,857 million with the Ministry of Commerce on 17 March 2008.

Registered and paid-up share capital of the Bank as at 31 December 2009 and 2008 are as follows:

	(Unit: Million Baht)	
	Separate financial statements	
	As at 31 December	
	2009	2008
Beginning balance	24,857	82,171
Decreased in registered and paid-up share capital	-	(59,574)
Increased in registered and paid-up share capital	-	2,260
Ending balance	24,857	24,857

25. Statutory reserve

Pursuant to Section 116 of the Public Company Limited Act B.E. 2535, the Bank is required to set aside to a statutory reserve at least 5% of its net income, after deducting any balance of deficit brought forward, until such reserve reaches 10% of the Bank's registered share capital. The statutory reserve is not available for dividend distribution.

In addition, under the Civil and Commercial Code, the Bank's subsidiaries are required to set aside a statutory reserve at least 5% of their net income each time dividend is declared until the reserve reaches 10% of registered share capital. The statutory reserve cannot be used for dividend payment.

26. Other reserve

The Bank can allocate part of its net income to become other reserves which are classified or considered to be general reserve with no specific purpose.

27. Capital funds

The primary objectives of the Bank's capital management are to maintain the Bank's ability to continue as a going concern and to maintain a capital adequacy ratio in accordance with the regulations of Bank of Thailand.

30.2 Operating lease commitments

As at 31 December 2009 and 2008, the Bank and its subsidiaries had land/building lease agreements for branch offices and vehicles lease agreements, for which the lease terms range from 3 to 30 years and are renewable. The Bank and its subsidiaries also have committed to pay future rental payments which can be summarised as follows:

(Unit: Million Baht)

	Consolidated		Separate	
	financial statements		financial statements	
	As at 31 December		As at 31 December	
	2009	2008	2009	2008
Land and building rental commitments	167	167	167	165
Car rental commitments	111	112	109	114
Total	278	279	276	279

30.3 Other commitments

The Bank has contractual commitments in respect of the purchase and servicing of information technology systems as well as other services. The outstanding balances of these major contractual commitments as at 31 December 2009, were approximately Baht 324 million (2008: Baht 223 million).

As at 31 December 2009, the Bank also has commitments in relation to various "to-sell and to-purchase" agreements for its foreclosed properties, the net book value of which was Baht 136 million (2008: Baht 781 million). The estimated gains under those agreements is Baht 5 million (2008: Baht 227 million), and the Bank recognises the sales transactions and any subsequent gains on the transfer dates.

In addition, the Bank has commitments in respect of the loss sharing under the Non-performing Loan Transfer Agreement made with TAMC, as discussed in Note 11.9.

31. Assets pledged as collateral

	(Unit: Million Baht)	
	Consolidated and separate financial statements	
	Net book value	
	As at 31 December	
	2009	2008
Government bonds		
Pledged as collateral for securities sold under repurchase agreement	858	379
Pledged as collateral for Government departments	1,442	2,792

32. Litigation

In the course of operating its banking business the Bank has had various labor suits and civil suits brought against it, including cases of tort. Under these lawsuits, claims against the Bank as at 31 December 2009 totaled Baht 1,077 million (2008: Baht 1,092 million). The Bank's management believes that the liability (if any) resulting from the lawsuits will not have a material impact to the Bank's financial position or results of operations.

33. Related party transactions

During the year, the Bank had significant business transactions with its subsidiaries, associated, related companies (related by ways of shareholding and/or common shareholders and/or common directors) and related persons (directors or executives from level of Senior Vice President who are Sector Head upwards). These transactions, have been concluded on commercial terms and based agreed upon in the ordinary course of business between the Bank and those companies. Interest rates on loans to employees are calculated based on the Bank's employee welfare policy.

As at 31 December 2009, the Bank also has staff welfare loans to executives from level of Senior Vice President who are Sector Head upwards of Baht 8 million (2008: Baht 9 million) and also has normal loans to its executive officers from Senior Vice President who are Sector Head upwards and their close family members with the outstanding balance of Baht 13 million (2008: Baht 13 million) and the average balance for the year then ended of Baht 11 million (2008: Baht 21 million).

In addition, as at 31 December 2009, the Bank also has deposits of those staff and their close family members of Baht 56 million (2008: Baht 126 million).

Significant transactions, outstanding balances, income and expenses incurred with related parties, apart from those disclosed in the other notes, are summarised below.

(Unit: Million Baht)

38. Disclosure of financial instruments

The Bank enters into financial instruments with off-balance sheet risk in the normal course of business, in order to meet the financing needs of its customers and to reduce its own exposure to fluctuations in foreign exchange rates and interest rates. These financial instruments with off-balance sheet risk include commitments to extend credit, standby letters of credit, financial guarantees, forward foreign exchange contracts, among others. Such instruments involve, to varying degrees, elements of credit risk, interest rate risk and foreign exchange risk in excess of the amount already recognised in the financial statements. The contracts or notional amounts of those instruments reflect the extent of the Bank's involvement in particular classes of financial instruments.

The Bank enters into derivative contracts as part of its risk management strategy primarily to manage market risks arising from the Bank's underlying assets and liabilities and to reduce customer risks. In entering into off-balance sheet financial instruments, the Bank is governed by policies and parameters proposed by the Assets and Liabilities Committee and endorsed by the Corporate Risk Management Committee and Board of Directors.

38.1 Accounting policies

Details of significant accounting policies and methods adopted, including criteria for recognition, the basis of measurement and the basis on which revenues and expenses are recognised in respect of each class of financial assets and financial liabilities, are disclosed in Note 5.

38.2 Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Bank and its subsidiaries. The Bank and its subsidiaries have adopted the policy of only dealing with creditworthy counterparts and obtaining sufficient collateral or other security, where appropriate, as a means of mitigating the risk of financial losses as a result of defaults.

In the case of recognised financial assets, the carrying amount of the assets recorded in the balance sheet, net of allowance for doubtful accounts, represents the Bank's and its subsidiaries' maximum exposure to credit risk.

Furthermore, the Bank's exposure to credit risk in the event of non-performance by the counterparties to commitments to extend credit, standby letters of credit, and financial guarantees is represented by the contractual notional amount of those instruments. The Bank uses the same credit policies in making commitments and accepting conditional obligations as it does for on-balance sheet instruments. For derivatives, the contract or notional amounts do not represent the real exposure to credit loss. The Bank controls the credit risk of its derivatives through the credit approval process, credit limits, and monitoring procedures set by its Executive Committee. Credit risks also arise from the possibility that the counterparty to the off-balance sheet financial instruments will not adhere to the terms of the contract with the Bank when settlement becomes due.

The following table shows the credit equivalent of unmatured off-balance sheet financial instruments in accordance with the BOT's ruling.

	(Unit: Million Baht)	
	Consolidated and Separate financial statements	
	As at 31 December	
	2009	2008
Foreign exchange contracts	863	2,568

Bid guarantees	177	195
Liability under unmatured import bills	103	142
Import letters of credit	318	250
Others	3	31
Total	8,472	10,531

38.3 Interest rate risk

Interest rate risk arises when there is the potential for a change in interest rates to have an adverse effect on the net interest income of the Bank and its subsidiaries in the current reporting year, and in the future. Interest rate risk arises from the structure and characteristics of the Bank and its subsidiaries' assets, liabilities, shareholders' equity and interest rate linked derivative contracts, and from maturity mismatch in the repricing dates of their assets and liabilities.

The table below shows the Bank and its subsidiaries' exposure to interest rate risk, the remaining period to the earlier of contractual repricing dates or maturity dates, and the average contractual interest rate, where applicable, for classes of financial assets and financial liabilities subject to interest rate risk.

38.4 Liquidity risk

Liquidity risk is the risk that the Bank and its subsidiaries may not be able to meet their obligations as they fall due as a result of inability to release their assets or to cover funding requirements at an appropriate price, resulting in losses to the Bank and its subsidiaries. The Bank's Assets and Liabilities Committee sets policies and supervises the management of liquidity risk.

The maturity analysis of financial assets, financial liabilities and off-balance sheet items computed from the remaining maturity to repayment date is as follows:

* Under liquidity risk management policy, non-accrual loans such as certain restructured loans and NPLs are reported in the no specific maturity bucket.

38.5 Estimated Fair Value of Financial Instruments

The fair values of financial instruments have been estimated by the Bank and its subsidiaries using available market information and appropriate valuation methodologies.

As at 31 December 2009 and 2008, there are no material differences between the Bank and its subsidiaries' book value of financial instruments and their fair value, except that the fair value of off-balance sheet financial instruments as follows:

(Unit: Million Baht)

	Consolidated and separate financial statements			
	As at 31 December			
	2009		2008	
	Notional value	Fair value*	Notional value	Fair value*
Foreign exchange contracts	95,479	(84)	138,409	815
Interest rate swap contracts	150,252	74	100,478	100
Cross currency interest rate swap contracts	7,547	1	10,134	225
Foreign exchange options	-	-	328	-
Equity - linked options	1,519	1	3,536	4

* Fair value represents gain/(loss) from mark-to-market as at the balance sheets date

38.6 Methods and assumptions in estimating fair value of financial instruments

The following methods and assumptions were used by the Bank and its subsidiaries in estimating fair value of financial instruments as disclosed herein.

a) Cash and interbank and money market items

The carrying amounts of cash and interbank and money market items which have remaining maturities of less than 1 year or bear floating rates of interest approximate their fair value. Fair value for fixed rate instruments with remaining maturities greater than 1 year is estimated by using a discounted cash flow calculation applying average interest rates currently being offered on similar instruments.

b) Securities purchased under resale agreements

The carrying amount of securities purchased under resale agreements is deemed to be the fair value.

c) Investments

Fair value for securities is based on quoted market prices, where available. If quoted market prices are not available, fair value is based on quoted market prices of comparable instruments after adjusting for risk involved or the net asset values of such securities.

d) Loans

For floating rate loans that reprice frequently and have no significant change in credit risk, fair value is based on carrying values. The fair value of fixed rate loans that reprice within 1 year from the balance sheet date is based on the carrying value at the balance sheet date. Fair value for other fixed interest rate loans is estimated using discounted cash flow analysis and using average interest rates currently being offered for loans with similar terms to borrowers of similar credit quality except in case of immaterial, carrying value will be used.

Fair value of hire-purchase and financial lease receivables is estimated by using discounted cash flow analysis and using interest rates currently being offered with average remaining years to maturity.

e) Accrued interest receivable

Fair value of accrued interest receivable is based on carrying values.

f) Deposit liabilities

The fair value of deposits which is payable on demand by the depositor, is equal to the carrying value of such deposits. The fair value of floating rate, certificates of deposit (CDs) and fixed rate deposits repricable within 1 year approximate their carrying value at the reporting date. Fair value for other fixed rate deposits is estimated using a discounted cash flow calculation that applies the current average deposit rates of the four major commercial banks to a schedule of aggregate expected monthly maturities on time deposits except in case of immaterial, carrying value will be used.

g) Interbank and money market items (liabilities)

The carrying amount of interbank and money market items which have remaining maturities of less than 1 year and/or bear floating rates of interest approximates their fair value at the reporting date. Fair value for fixed rate instruments with remaining maturities greater than 1 year is estimated by using a discounted cash flow calculation applying average interest rates currently being offered on similar instruments.

h) Securities sold under repurchase agreements

The carrying value of securities sold under repurchase agreements approximates fair value.

l) Borrowings

The fair value of borrowings with remaining maturities less than 1 year approximates their carrying value at the reporting date. Fair value of borrowings with remaining maturities greater than 1 year is estimated using discounted cash flow analysis based on the average current borrowing rates for similar types of borrowing arrangements.

J) Fair value of off-balance sheet financial instruments

Commitments to avar, guarantee, and letters of credit

These financial instruments are generally not intended to be sold or traded such that estimated fair values are not readily ascertainable. Fair value of these items were not calculated for the following reasons:

- very few of the commitments extending beyond 1 year would commit the Bank to a predetermined rate of interest;
- the fees attaching to these commitments are the same as those currently charged to enter into similar arrangements; and
- the quantum of fees collected under these arrangements, upon which fair value would be determined, is not material.

Other off-balance sheet financial instruments

The fair values of foreign exchange contracts were obtained from quoted market prices of similar foreign exchange contracts. For the other derivative contracts, the fair value is estimated using discounted cash flow.

39. Reclassification

Certain amounts in the financial statements for the year ended 31 December 2008 has been reclassified to conform to the current year's classification but with no effect to previously reported net income or shareholders' equity. The reclassifications, which were mostly made to comply with the regulators' requirements are as follow:

(Unit: Million Baht)

	Consolidated financial statements		Separate financial statements	
	After reclassification	As previously reported	After reclassification	As previously reported
Assets				
Intangible assets - net	827	986	825	983
Other assets – net	1,173	1,019	1,064	911
Liabilities				
Accrued expenses	1,242	907	1,161	841
Other liabilities	816	1,157	726	1,051
Off-balance sheet items				
- Contingencies and commitments				
Letters of credit	1,491	1,509	1,491	1,509
Other contingencies and commitments	286,047	286,029	286,047	286,029

40. Subsequent event

- 40.1** The Board of Directors in its Meeting held on 9 March 2010 approved the entire business transfer of UOB Leasing (Thai) Co., Ltd. to the Bank including all staffs. Net Assets Value of UOB Leasing (Thai) Co., Ltd was Baht 1,027 Million as at 31 December 2009. The Bank plans to complete the entire business transfer within 2010 subject to obtaining all necessary regulatory approvals.
- 40.2** On 27 January 2010, the Bank signed a Sale and Purchase Agreement to sell Properties foreclosed (“NPAs”) with a net book value of Baht 720 million to Bangkok Commercial Asset Management Company Limited (“BAM”). The transfer of these properties title deeds is expected to be completed by end-July 2010.

41. Approval of Financial Statements

These financial statements were authorised for issue by the Bank’s Board of Directors on 9 March 2010.

Directors of UOB (Thai) do not own any shares in UOB (Thai) or any of its subsidiaries and associated companies.

8. Auditor's remuneration

In 2009, the Bank and its subsidiaries paid for audit fee and special audit fee regarding to Bank of Thailand's requirement to Ernst & Young Office Limited amounting to Baht 8,650,000 and Baht 350,000 respectively, totalling Baht 9,000,000.

Pillar 3 disclosure

As at 31 December 2009

Pillar 3 disclosure

In compliance with the Bank of Thailand (“BOT”)’s notification to banks on Basel II Pillar 3: - Market Discipline, the following quantitative and qualitative disclosures have been included to facilitate the understanding of the Bank’s risk profile and assessment of the Bank’s capital adequacy.

Internal Audit

Internal Audit (“IA”) is an independent function that reports directly to the Audit Committee and the Board of Directors (“the Board”). IA carries out independent audit on the rest of the Bank and reports any control deficiencies, control lapses as well as non-compliance with policies and procedures to the Audit Committee and the Board. IA will periodically assess the formal disclosure policy and internal controls over the disclosure process to ascertain that the operations of disclosure are in compliance with related rules and/or regulations.

Capital Management

Our capital management is overseen by senior management and the Board. The overall framework seeks to ensure that UOB (Thai) maintain sufficient capital and complies BOT’s minimum requirement and to support the underlying risks of the banking business activities.

Capital management involves a continuous capital assessment process, which encompasses the following key elements:

- Assessment of capital and business risks on an integrated basis across business segments, products, and the integration of such assessment with the budgeting process;
- Setting and tracking of internal capital targets to ensure that the Bank is able to maintain adequate capital for business growth;
- Assessment of short-term and long-term capital needs, including stress testing and scenario reviews, for the purposes of capital management and planning; and
- Assessment of the quality of capital and financing structures.

Capital management is led by Finance Sector, with support from Risk Management, and key Business Units.

Risk Management

The assumption of financial and non-financial risks is an integral part of the Bank’s business. Our risk management strategy is to ensure on-going effective risk discovery and achieving effective capital management. Risks are managed within level established by the management committees, and approved by the Board and its committees.

The Bank applies the following risk management principles:

- Promotion of sustainable long-term growth through embracing sound risk management principles and business practices;
- Continual improvement of risk discovery capabilities and establishment of appropriate value-creating risk controls; and
- Focus on facilitating business development within a prudent, consistent and efficient risk management framework that balances risks and returns.

The Bank has a comprehensive framework of policies and procedures for the identification, measurement, monitoring and control of risks that in line with United Overseas Bank (“UOB”) Group’s practices. The risk management function is independent of the business units it monitors. This framework is governed by the appropriate Board and senior management committees.

Credit Risk

Credit Risk is defined as the potential loss arising from any failure by customers to fulfill their obligations, as and when they fall due. These obligations may arise from on-balance sheet and off-balance sheet exposures such as direct lending, trade finance, receivables under derivatives and foreign exchange contracts, and other credit-related activities.

Through the Risk Management Committee or Credit Risk Committee, the Bank establishes well-defined risk parameters for accepting credit risk, credit policies, guidelines and procedures to ensure that the credit portfolio is well-diversified and of an acceptable quality.

The Bank also has in place a rigorous process to regularly review, monitor and report credit exposures including risk concentration, industry sector exposures, level of non-performing loans as well as adequacy of provisions.

Pillar 3 disclosure

As at 31 December 2009

Credit Risk Policies and Monitoring

Credit policies and processes are in place to manage credit risk in the following key areas:

Credit approval process

To maintain independence and integrity of the credit approval process, the credit approval function is segregated from credit origination. Credit approval authority is delegated through a risk-based credit discretionary limit ("CDL") structure that is tiered according to the borrower's credit standing. Delegation of CDL follows a stringent process that takes into consideration the experience, seniority and track record of the officer. All credit approving officers are guided by credit policies and credit acceptance guidelines. Approval of consumer and small business loans is guided by product programmes. These credit policies, guidelines and product programmes are periodically reviewed to ensure their continued relevance.

Credit risk concentration

A risk-sensitive process is in place to regularly review, manage and report credit concentrations and portfolio quality. This includes monitoring concentration limits and exposures by obligors, portfolios, borrowers, and industries. Limits are generally set as a percentage of the Bank's capital fund.

Obligor limits ensure that there is no undue concentration to a group of related borrowers that may potentially pose a single substantial risk to the Group.

Portfolio and borrower limits ensure that lending to borrowers with weaker credit is confined to acceptable levels. These limits are generally tiered according to the borrowers' credit standing.

Industry limits ensure that any adverse effect arising from an industry-specific risk event is confined to acceptable levels.

Credit Stress Test

The Bank incorporates periodic credit stress testing as an integral part of its credit portfolio management process. This allows the Bank to assess the potential credit losses arising from the impact of exceptional but plausible adverse events. The preventive actions against the potential vulnerabilities and credit deterioration shall be taken where necessary.

Delinquency monitoring

All delinquent non-retail accounts, including credit limit excesses, are closely monitored and managed through a robust process by officers from business units, and risk management. Where appropriate, these accounts are also subject to more frequent credit reviews. For delinquent consumer loans as well as the small retail enterprise loans, delinquent accounts are auto-routed to the collectors for immediate actions.

Delinquency trends are monitored, analysed and reported to the Credit Risk Committee periodically.

Classification and loan loss impairment

The Bank classifies its loan portfolios according to the borrower's ability to repay the loan from its normal source of income. All loans and advances to customers are classified into 'Pass', 'Special Mention' or 'Non-Performing or Default' categories. Non-performing loans ("NPL") are further classified as 'Substandard', 'Doubtful' or 'Loss' in accordance with BOT's guidelines.

Upgrading and de-classification of a NPL account to 'Pass' or 'Special Mention' status shall be supported by a credit assessment of the repayment capability, cash flows and financial position of the borrower. The Bank must also be satisfied that once the account is de-classified, the account is unlikely to be classified again in the near future.

The Bank provides for impairment in accordance with regulatory requirement as well as accounting standards.

Special Asset Management

Special Asset Management ("SAM") manages the non-performing portfolios of the Bank. SAM proactively manages not only NPL accounts, with the primary intention of nursing these accounts back to health and transferring them back to the respective business units, but also disposal of NPA to maximise the bank's recovery. SAM also manages to maximise revenues for those NPL accounts that the Bank intends to exit.

Write-off policy

A classified account that is not secured by any realisable collateral will be written off when all feasible avenues of recovery have been exhausted.

Credit Risk Mitigation

As a fundamental credit principle, the Bank generally does not extend credit facilities solely on the basis of collateral provided. All credit facilities are granted based on the credit standing of the borrower, source of repayment and debt servicing capability.

Collateral is taken whenever possible to mitigate the credit risk assumed. The value of the collateral is monitored periodically. The frequency of valuation depends on the type, liquidity and volatility of the collateral value as well as in accordance with specific regulations as mandated by BOT. The main types of collateral taken by the Bank are cash, qualified marketable securities and mutual funds. Valuation policies and procedures, including the process to monitor collateral concentration, are in place.

In addition, personal guarantees are often taken as a form of moral support to ensure moral commitment from the principal shareholders and/or directors.

Corporate guarantees are often obtained when the borrower's credit worthiness is not sufficient to justify an extension of credit.

The Bank currently uses supervisory prescribed haircuts for eligible financial collateral. For the capital computation purpose, the Bank does not recognise personal and corporate guarantees as an eligible credit risk protection. The Bank also does not recognise International Swaps and Derivatives Association ("ISDA") netting.

Credit exposures under Standardised Approach

Approved External Credit Assessment Institutions ("ECAI") ratings and prescribed risk weights are used based on asset class in the computation of regulatory capital except for Claims on Corporate where 100% risk weight is applied.

The three international ECAs used by the Bank are Fitch Ratings, Moody's Investors Service and Standard & Poor's.

Market Risk

Market risk is governed by the Asset and Liability Committee ("ALCO"), which meets monthly to review and provide directions on market risk matters. The Market Risk Management Unit ("MRM") supports the ALCO with independent assessment of the market risk profile of the Bank.

The Bank's market risk framework comprises market risk policies, practices, control and risk limits structure with appropriate delegation of authority. In addition, we have a stringent Product/Service Programme process in place to ensure that market risk issues are adequately addressed prior to product launches.

The Bank currently adopts the Standardised Approach for the calculation of regulatory market risk capital but uses Value-at-Risk ("VaR") to measure and control trading market risks. To complement the VaR measure, stress and scenario tests are performed to identify the Bank's vulnerability to event risk. These tests serve to provide early warnings of plausible extreme losses to facilitate proactive management of market risks.

Interest Rate Risk in Banking Book

Balance Sheet Risk Management Unit ("BSRM") supports the ALCO in monitoring the interest rate risk profile of the Banking book. The Assets and Liabilities Management unit ("ALM") under the Global Markets Group is responsible for the effective management of balance sheet risk in accordance with the approved policy.

The primary objective in managing balance sheet risk is to manage the volatility in net interest income ("NII"), and economic value of equity ("EVE"). EVE is the present value of assets less the present value of liabilities.

Interest rate risk assessment is mainly based on earnings perspective and economic value perspective. The impact of interest rate sensitivity is measured via static analysis. The Bank also conducts analysis using the repricing gap approach and price value of a basis point (PV01). In repricing gap approach, the cash flows are profiled in different time bands based on product characteristics. For loans and deposits that do not have maturity dates such as saving account deposit, the earliest possible repricing dates will be taken into consideration. Mismatches in the longer tenor from repricing gap will experience greater change in the price-value of interest rate positions than similar positions in the shorter tenor.

Pillar 3 disclosure

As at 31 December 2009

In addition, the Bank performs monthly stress testing to assess the impact of interest rate change on NII and EVE. The parallel rate shocks of 100 basis points (“bp”) and 200bp are applied to the repricing gap profile. Such test is performed to provide early warnings of potential losses, facilitating the proactive management of interest rate risks.

Liquidity Risk

The Bank maintains sufficient liquidity to fund its day-to-day operations, meet deposit withdrawals, loan disbursements, and repay borrowings. Hence, liquidity is managed in a manner to address known as well as unanticipated cash funding needs.

Liquidity risk is managed in accordance with a framework of policies, controls and limits established by the ALCO. These policies, controls and limits enable the Bank to monitor and to manage liquidity risk to ensure that sufficient sources of funds are available over a range of market conditions. These include minimising excessive funding concentrations by diversifying the sources and terms of funding as well as maintaining a portfolio of high quality and marketable debt securities.

The Group takes a conservative stance in its liquidity management by continuing to gather core deposits, ensuring that liquidity limits are strictly adhered to and that there are adequate liquid assets to meet cash shortfall.

The distribution of deposits is managed actively to ensure a balance between cost effectiveness, continued accessibility to funds, and diversification of funding sources. Important factors in ensuring liquidity are competitive pricing, proactive management of the Bank’s core deposits and the maintenance of customer confidence. Core deposits are generally stable non-bank deposits, such as current accounts, saving accounts and fixed deposits. The Bank monitors the stability of its core deposits by analysing their volatility over time.

Liquidity risk is aligned with the regulatory liquidity risk management framework, and is measured and managed on a projected cash flow basis. The Bank is monitored under ‘business as usual’, ‘bank-specific crisis’ and ‘general market crisis’ scenarios. Behavioural modelling is carried out regularly to ensure that the cash flow requirements for ‘business as usual’ and crisis scenarios are realistic. Cash flow mismatch limits are established to limit the Bank’s liquidity exposure. The Bank also employs liquidity early warning indicators and trigger points to signal possible contingency situations.

Contingency funding plans are in place to identify liquidity crises using a series of warning indicators. Crisis escalation processes and various strategies including funding and communication have been developed to minimise the impact of any liquidity crunch.

Behavioural modelling is carried out and reviewed regularly. Loans and deposits which do not have maturity dates, and fixed deposits which are rolled over frequently, are generally estimated based on their past statistics or trends. Other balance sheet items like credit cards are generally estimated based on the behavioural patterns of customers.

Operational Risk

Operational risk is managed through a framework of policies, processes and procedures by which business units identify, assess, monitor and control/mitigate their operational risks.

Operational Risk Self Assessments involve identifying and assessing inherent risks, as well as assessing the effectiveness of controls to mitigate the identified risks. Action plans to address issues are documented and monitored via Operational Risk Action Plans.

Key Operational Risk Indicators are statistical data collected and monitored by business and support units on an on-going basis to facilitate early detection of potential operational control weaknesses. Trend analysis is carried out to identify systemic issues that need to be addressed.

A database of operational risk events and losses has been established to facilitate the future use of advanced approaches for quantification of operational risks. The analysis of loss trends and root causes of loss events helps in strengthening the internal control environment.

An Insurance Programme is in place to effectively mitigate the risk of high impact operational losses.

A Product/Services Programme ensures that risks associated with the introduction of new products and services are identified, analysed and addressed prior to launch and is subject to periodic reviews.

With the increasing need to outsource for cost and operational efficiency, the Bank's Outsourcing Policy and Framework ensures that outsourcing risks are adequately identified and managed prior to entering any new arrangements and on an on-going basis.

Effective business continuity and crisis management strategies and plans have been developed and tested to ensure prompt recovery of critical business functions in the event of major business and/or system disruptions.

Legal risk is part of operational risk. Legal risk arises from unenforceable, unfavourable defective or unintended contracts; lawsuits or claims; developments in laws and regulations; or non-compliance with applicable laws and regulations. Business units work with the Bank's legal counsel and external legal counsel to ensure that such legal risks are effectively managed.

Reputation risk is the adverse impact on earning, liquidity or capital arising from negative stakeholder perception or opinion on the Bank's business practices, activities and financial condition. The Bank has a framework for managing reputation risk.

An operational risk management training and awareness programme is in place to facilitate on-going promotion of an effective risk management culture.

The Bank adopts the Standardised Approach for the calculation of regulatory operational risk capital.

Pillar 3 disclosure

As at 31 December 2009

Pillar 3 disclosure – Quantitative parts

A. Scope of application

In compliance with the requirement under Basel II Pillar 3 and the Bank of Thailand (“BOT”) disclosure requirements, the Bank has developed a set of quantitative disclosures for its position as of 31 December 2009 covering the following areas:

- Capital and the minimum capital requirement by risk type
- Risk Exposure and Assessment
 - Credit Risk
 - Equity Exposures
 - Interest Rate Risk in Banking Book

The capital disclosures will be compared against 30 June 2009 position (first disclosure under BOT requirements) while the risk exposure disclosures will be the position as at 31 December 2009.

B. Capital

I. Capital Structure

UOB (Thai) maintains capital to meet the minimum regulatory capital requirements set by the BOT. In addition, the Bank assesses its capital adequacy to support current and future business activities. The following table shows the breakdown of the total regulatory capital for the Bank as at 31 December 2009, compared with the positions as of 30 June 2009.

Capital Structure

	Unit: Million baht	
	31 Dec 09	30 Jun 09
Tier 1 Capital		
Paid up share capital	24,857	24,857
Statutory reserve	100	65
Retained earnings after appropriation	3,205	1,185
Less Deferred Tax Assets	(2,020)	-
Total Tier 1 capital	26,142	26,107
Tier 2 Capital		
Unrealised revaluation surplus on land and building appraisal	692	693
Reserve for normal performing loans	1,336	1,277
Revaluation surplus from equity securities - AFS	177	91
Total Tier 2 capital	2,205	2,061
Total capital funds	28,347	28,168

UOB (Thai)'s tier 1 capital funds consist of issued and paid-up share capital, statutory reserve and retained earnings. Following the adoption of the deferred tax accounting in June 2009, UOB (Thai)'s prior years retained earnings has increased by Baht 2,020 million. As per BOT capital requirement, the Bank has to deduct the Deferred Tax Assets (“DTA”) balance for the computation of tier 1 capital. The 2009 net profit will not be eligible to be counted as the tier 1 capital until it is appropriated to retained earnings by Shareholders in its meeting in April 2010.

The Bank's tier 2 capital comprises the property revaluation reserve, the general provision for normal performing loans and the revaluation gain on equity securities under available-for-sale (“AFS”) portfolio in the amount as allowed by BOT.

II. Capital Adequacy

Under BOT guidelines, the Bank is required to maintain a minimum ratio of total capital to risk weighted assets of 8.50%, with the minimum ratio of tier 1 capital to risk weighted assets at 4.25%. In addition, Tier 2 capital cannot exceed Tier 1 capital.

As of 31 December 2009, UOB (Thai)'s Total Capital Adequacy Ratio was 21.18%, compared to the BOT minimum requirement of 8.50%, with tier 1 capital ratio at 19.53%.

		Unit: Percent	
	BOT Minimum Requirement	31 Dec 09	30 Jun 09
Total capital funds to risk weighted assets	8.50	21.18	21.98
Tier 1 capital funds to risk weighted assets	4.25	19.53	20.37

Risk Weighted Assets

For regulatory capital requirement under Basel II, UOB (Thai) has adopted the standardised approach (SA) for the capital computation for credit, market and operational risk since 31 December 2008. As of 31 December 2009, the breakdown of risk weighted assets by risk types is shown in the table below.

	Unit: Million baht	
	31 Dec 09	30 Jun 09
Credit risk weighted assets	116,424	111,163
Market risk weighted assets	3,886	3,510
Operational Equivalent Amount for Risk Weighted Assets	13,531	13,464
Total risk weighted assets	133,841	128,137

III. Minimum Capital Requirement

Under the Basel II Pillar 1 framework, the minimum capital requirement is to be calculated for three types of risk including credit, market and operations. Banks must maintain the regulatory capital in their book above the minimum capital requirement.

The table below shows a breakdown of the minimum capital requirements by risk types. As at 31 December 2009, UOB (Thai)'s total capital fund was Baht 28,347 million, Baht 16,971 million higher than the minimum regulatory requirement of Baht 11,376 million.

Minimum Capital Requirements by each type of risk

		Unit: Million baht	
	Approach	31 Dec 09	30 Jun 09
Minimum capital requirements for credit risk	Standardised	9,896	9,449
Minimum capital requirements for market risk	Standardised	330	298
Minimum capital requirements for operational risk	Standardised	1,150	1,145
Total minimum capital requirement (8.50%)		11,376	10,892
UOB (Thai)'s Total capital funds (21.18%)		28,347	28,168
Excess of capital funds over minimum capital requirement		16,971	17,276

Pillar 3 disclosure

As at 31 December 2009

UOB (Thai)'s minimum capital requirement for credit risk under SA is further broken down by Basel II asset class as per the followings table:

Minimum Capital Requirement for Credit Risk classified by asset classes under SA

	Unit: Million baht	
	31 Dec 09	30 Jun 09
Performing claims		
1. Claims on sovereigns and central banks	-	3
2. Claims on financial institutions, PSEs treated as claims on financial institutions, and securities firms	161	276
3. Claims on corporates, PSEs treated as claims on corporate	4,829	4,251
4. Claims on regulatory retail portfolios	2,059	1,926
5. Claims on housing loans	1,358	1,348
6. Other assets	1,127	1,234
Total performing claims	9,534	9,038
Non-performing claims	362	411
Total minimum capital requirement for credit risk – SA	9,896	9,449

Note: PSE = non-central government public sector entities

UOB (Thai)'s minimum capital requirement for market risk under SA is further broken down by types of market risk per the table below:

Minimum Capital Requirements by type of market risk under SA

	Unit: Million baht	
	31 Dec 09	30 Jun 09
Interest rate risk	325	262
Equity position risk	-	-
Foreign exchange rate risk	5	36
Commodity risk	-	-
Total minimum capital requirements	330	298

C. Risk exposures and assessment

Credit risk

The following table shows the selected outstanding exposures from both Trading and Banking Books.

Outstanding balance of assets and off-balance sheet items

As at 31 December 2009

	Unit: Million baht		
	Remaining Maturity		Total
	Within 1 year	More Than 1 year	
Asset Items			
Loans – net of provision	107,765	72,664	180,429
Debt securities – net of provisions	6,618	13,684	20,302
Deposits and Placement	3,542	-	3,542
Off-balance Sheet Items			
Aval of bills, guarantees of loans and letter of credits	2,465	883	3,348
OTC derivatives (notional amount)	135,727	117,402	253,129
Undrawn committed line	312	1,217	1,529

Note: The outstanding off-balance sheet items are before applying credit conversion factors (CCF).

**Outstanding loans classified by business types and by BOT loan classifications
As at 31 December 2009**

Unit: Million baht

Business Types	Loan classification as prescribed by the BOT					Total
	Normal	Special Mention	Sub- standard	Doubtful	Doubtful of loss	
Agriculture and mining	504	7	55	-	417	983
Manufacturing and commerce	40,552	2,512	594	28	4,402	48,088
Real estate and construction	9,370	597	41	-	366	10,374
Public utilities and services	15,420	479	8	1	204	16,112
Housing loans	43,962	432	391	180	1,017	45,982
Others	63,117	554	536	279	113	64,599
Total Loans	172,925	4,581	1,625	488	6,519	186,138
Accrued Interest Receivable	302	31	-	-	-	333
Total	173,227	4,612	1,625	488	6,519	186,471

Note: Loans before provisions

**Provisions and bad debt written-off during year 2009 classified by business types
As at 31 December 2009**

Unit: Million baht

Business Types	General provision	Specific provision	Write-off
			during the period
Loans			
Agriculture and mining		183	2
Manufacturing and commerce		3,307	226
Real estate and construction		149	4
Public utilities and services		73	27
Housing loans		386	34
Others		560	1,417
Total	1,384	4,658	1,710
Investment in Debt Securities			
Impairment Loss for TAMC promissory notes		2,191	
Impairment Loss for corporate debentures		25	
MTM loss on government securities in banking and trading portfolios		211	
Total		2,427	

Note: General provision is the provision for performing loans, while Specific provision is the provision for non-performing loans.

Pillar 3 disclosure

As at 31 December 2009

Movement of provisions for loans during the year 2009

	Unit : Million Baht		
	General provision	Specific provision	Total
Beginning Provisions as at 31 Dec 08	1,524	4,367	5,891
Movement in 2009 :			
Add/ (Deduct)			
1. Bad debts written-off	-	(1,710)	(1,710)
2. Increase/ (Decrease) in provisions	(140)	2,006	1,866
3. Change in provisions from exchange rate	-	(5)	(5)
Ending Provisions as at 31 Dec 09	1,384	4,658	6,042

Exposures at Default ("EAD")

As per Basel II definition, the exposure at default ("EAD") gives an estimate of the amount outstanding drawn amounts plus likely future drawdowns in case the borrower defaults. The following table exhibits the EAD for credit risk which are the outstanding balances of both on-balance sheet assets and off-balance sheet items, distributed by Basel II asset class. Under Basel II Standardised Approach, the EAD of the assets is shown as net of specific provision, while the EAD of the off-balance sheet items is presented after applying the relevant credit conversion factor ("CCF") and net of specific provision.

EAD by asset classes

	Unit: Million baht		
	On balance sheet assets	Off-balance sheet items	Total
Performing claims			
1. Claims on sovereigns and central bank	57,081	8	57,089
2. Claims on financial institutions, PSEs treated as claims on financial institutions, and securities firms	2,370	3,303	5,673
3. Claims on corporates, PSEs treated as claims on corporate	58,023	6,826	64,849
4. Claims on retail portfolios	31,785	2,534	34,319
5. Claims on housing loans	43,666	101	43,767
6. Other assets	21,673	-	21,673
Total performing claims	214,598	12,772	227,370
Non-performing claims	3,972	374	4,346
Total	218,570	13,146	231,716

Notes : 1) PSEs = Non-central government public sector entities
2) The EAD is before applying credit risk mitigation (CRM).

Credit Risk Mitigation ("CRM")

Under Basel II standardised approach, Banks may reduce their capital requirement by recognising different forms of eligible CRM. The main CRM techniques as allowed by BOT are netting, financial collateral, guarantees and credit derivatives. For UOB (Thai), financial collateral and guarantee are the most widely used forms of credit risk mitigation. The table below shows the EAD amount being secured by the eligible financial collateral and guarantee. The value of eligible collateral is after applying the appropriate discount factors as stipulated by the BOT.

Eligible Financial Collateral and Guarantee

Unit: Million baht

	Financial collateral	Guarantee	Total
Performing claims			
1. Claims on sovereigns and central banks	-	-	-
2. Claims on financial institutions, PSEs treated as claims on financial institutions, and securities firms	15	24	39
3. Claims on corporates, PSEs treated as claims on corporate	5,882	2,161	8,043
4. Claims on retail portfolios	2,284	140	2,424
5. Claims on housing loans	-	-	-
6. Other assets	-	-	-
Total performing claims	8,181	2,325	10,506
Non-performing claims	232	29	261
Total	8,413	2,354	10,767

Note: PSEs = Non-central government public sector entities

Report of the Audit Committee

The Audit Committee of United Overseas Bank (Thai) Pcl. comprises three independent directors: Mr Suebrakul Soonthornthum, AC Chairman, Mr Chinnawat Bulsuk, and Mr Arun Chirachavala as Committee members. All Committee members are non-executive directors and non-employees of the Bank.

In the year 2009, the Committee held five meetings to review the Bank's internal controls and discussed financial and operational audit issues with the Bank's external auditors and the internal auditors. Relevant management members were invited to attend the meetings to provide additional information and clarification of the internal control systems.

Major matters discussed in the meeting were as follows:

- Reviewed the major items of the financial reports and reviewed the reliability of those reports including held the meeting (non-executive session) with external auditor (E&Y)
- Proposed the revised Audit Committee Charter for the Board of Directors' approval
- Approved the revised Internal Audit Charter and IA Codes of Ethics and proposed to the Board of Directors for approval
- Approved and monitored the Internal Audit Year Plan and resources
- Acknowledged the quarterly Compliance and Risk Management reports
- Acknowledged major audit findings regarding the compliance with internal and external regulations
- Acknowledged the quarterly audit reports, major findings, and status update
- Acknowledged the Basel II - Internal Ratings Based Approach (IRBA) implementation issues and progresses
- Reviewed the adequacy and effectiveness of the Bank's internal control systems by discussion with senior management
- Reviewed the reasonableness of the connected and related parties' transactions
- Reviewed and proposed the Bank's external auditor fees to the Board of Directors

The Committee has continually reviewed and assessed the Bank's key risks, controls and monitoring system through the Bank's Internal Audit and by discussion with external auditors and senior management. From the evaluation of the Bank's internal control systems, it concluded that the Bank's internal controls in the area of financial reporting and risk management are adequate and reliable and that the Bank continues to improve the overall internal control framework. In addition, the Internal Audit System is ISO9001:2008 certified.

Mr Suebrakul Soonthornthum
Chairman of the Audit Committee
March 9, 2010

Opinion of the Audit Committee on the Bank's Internal control system

The Board of Directors has reviewed the opinion and the assessment form on the adequacy of internal control system prepared by the Audit Committee during the Board of Directors' Meeting no. 569 held on March 9, 2010. Participants in the meeting included the Audit Committee members comprising the three independent directors who are not employees of the Bank.

The Audit Committee's opinion on the internal control system of the Bank and its subsidiaries was summarized from meetings with senior management, external auditors reports, quarterly reports from Risk Management, Compliance, Internal Audit, and General Control Environment Self-Assessment (GCESA). The evaluation of the Bank's internal control system in five sections were as follows:

- Organisation Control and Environment Measure
- Risk Management Measure
- Management Control Activities
- Information and Communication Measure
- Monitoring and Evaluation

The Audit Committee is of the opinion that the Bank has in place an adequate internal control system. The Audit Committee has been regularly notified of the issues as they arise.

The external auditor of the Bank is Ms Ratana Jala, certified public account of Ernst & Young Office Limited, which examined the Financial Statements as at December 31, 2009. Ernst & Young has given the opinion in the Audit Report that the financial statements as at December 31, 2009 present fairly, in all material respects, the financial position of the Bank, the results of operations and cash flows for the years then ended in conformity with generally accepted accounting principles.

Mr Suebrakul Soonthornthum
Chairman of the Audit Committee
March 9, 2010

Corporate governance and Management structure

United Overseas Bank (Thai) Public Company Limited (the “Bank”), a United Overseas Bank Limited (“UOB”) subsidiary, is committed to maintaining the highest standard of corporate governance. The Bank believes that good corporate governance is fundamental to sustaining business growth, as well as safeguarding the rights and interests of all stakeholders, including shareholders, employees, business partners, customers, regulatory agencies and auditors. The Bank established a “Code of Conduct” (the “code”) as a set of principles for all employees, including directors and management team, to govern their roles and responsibilities. This code spells out the best practices that all employees should follow to uphold the principles of integrity and trust that our stakeholders have placed on the Bank. The code covers, among other things, investment in securities, the receiving and giving of gifts/entertainment, and prevention of money laundering.

The Board of Directors (the “Board”) has formed various committees for management purposes, and closely monitors their performance for sound operation. These committees ensure that the Bank adheres to the good governance practices of the Bank of Thailand and government entities to ensure that the interests of all stakeholders are equally protected.

Control Systems and Internal Audit

The Board and management recognise the importance of having efficient internal control, risk management, compliance and internal audit systems. All units within the Bank are expected to comply with the governance guidelines on internal controls and ethics. Control activities form an integral part of operational processes. The Bank has established control structures for all relevant units and separated the duties of persons who perform operations from those in charge of control and monitoring to provide the appropriate checks and balances. The Bank has also set up various committees to manage detailed day-to-day operational matters, and has a qualified Internal Audit team to audit all established controls procedures.

Internal Audit is an independent unit that reports directly to the Audit Committee and is responsible for auditing and providing assurance with regard to operational control (including related-party transactions) and internal control guidelines. Internal Audit is certified under international standards (ISO9001:2008) and complies with UOB Group’s audit standards.

Directors’ Reporting

The Board is responsible for the Bank’s and its subsidiaries’ consolidated financial statements and for the financial information presented in this annual report. These financial statements were prepared in accordance with accounting standards enunciated under the accounting Profession Act. B.E. 2547, and in reliance of governing policies, careful judgement and best estimates. Important information is adequately disclosed in the notes to financial statements and has been reviewed and unconditionally commented by independent certified public accountants. The Bank’s financial statements reflect the true and transparent financial status and performance for the information of shareholders.

The Board has provided and maintained an effective internal control system to ensure that accounting records are accurate, complete and adequate to protect the Bank’s assets and to uncover weaknesses to prevent operational risk or materially irregular operations.

The Board of Directors has established the Audit Committee, consisting of independent members, which is responsible for the quality of the financial reports, internal control system, internal audit and disclosure of related transactions or transactions that may cause conflict of interest, to ensure correctness and transparency.

Management structure

Board of Directors

The Board of Directors (the “Board”) consists of ten qualified directors, three of whom are independent directors. The Board meets at least once every three months and no fewer than half of the total number constitutes a quorum for meetings.

The Board’s duties are to set the Bank’s policies and operational directions as well as to oversee management to ensure its efficient and effective compliance with the Bank’s policies, relevant laws, objectives, articles of association, and the shareholders’ resolutions. The Board is also empowered to elect a certain number of Board members to form the Executive Committee to conduct any business or businesses under any such condition that the Board may think fit and may assign one director or other person to take action on its behalf.

The Board of Directors consists of:

Wee Cho Yaw	Chairman
Wee Ee Cheong	Deputy Chairman
Chinnawat Bulsuk	Independent Director
Suebrakul Soonthornthum	Independent Director
Arun Chirachavala	Independent Director
Lee Chin Yong	Director
Cheo Chai Hong	Director
Wong Kim Choong	Director
Chua Teng Hui	Director
Lee Tse Tiong	Director

Executive Committee

The Executive Committee (“EXCO”) is empowered by the Board to manage the day-to-day operations of the Bank. The EXCO is also given the authority to a) set credit discretionary limits; b) approve or ratify approvals for credit applications and debt restructuring cases; c) delegate to the Assets and Liabilities Committee (“ALCO”) the responsibility to manage and review the Bank’s assets and liabilities; d) review and approve the risk policies of the Bank; and e) approve and control the design and development of the use of the risk measurement system, including the processes and procedures applied in the risk appraisal. The EXCO also empowers the Bank’s President to set up any necessary functional committees, makes changes to

the members of these committees and determines the scope of duties and responsibilities of these committees. In addition, the EXCO is responsible for monitoring the progress of the Bank's business operations.

The Executive Committee consists of:

Wong Kim Choong	Chairman
Wee Ee Cheong	Vice Chairman I
Lee Chin Yong	Vice Chairman II
Chua Teng Hui	Member
Lee Tse Tiong	Member

Audit Committee

The Audit Committee is appointed by the Board of Directors. Its main responsibilities are to ensure that the Bank has appropriate and efficient internal control system and internal audit functions, operates the business in compliance with the regulations imposed by governing laws, and that the process of the preparation and disclosure of information in the financial reports of the Bank is complete and correct. The Audit Committee is also responsible for the selection and nomination of the Bank's auditors, including determining the auditors' remuneration and considering the disclosure of information on related-party transactions or transactions where conflict of interest may occur, to ensure transparency and accuracy.

The Audit Committee consists of:

Suebtrakul Soonthornthum	Chairman
Chinnawat Bulsuk	Member
Arun Chirachavala	Member

Nomination and Compensation Committee

The Nomination and Compensation Committee is appointed by the Board of Directors. This committee is responsible for setting up the policies and criteria for considering the remunerations of the Bank's Board members and senior management, as well as making recommendation on appropriate persons for designated senior positions, and the compensation package of these senior appointments.

The Nomination and Compensation Committee consists of:

Chinnawat Bulsuk	Chairman
Wee Ee Cheong	Member
Lee Chin Yong	Member

Risk Management Committee

The Risk Management Committee is responsible for establishing policies and strategies covering all risks that may affect the reputation and the stability of the Bank and its subsidiaries. In this regard, the committee estimates, follows up, and monitors the risks of the Bank to manage them at an appropriate level. The committee reviews the adequacy of these risk policies, risk management procedures, and all important aspects of the rating systems and processes including the use of rating systems and estimates of Internal Ratings-Based Approach parameters, which is in line with the Bank's direction towards a more advanced approach for compliance with the Basel II capital framework, and

stress tests, and reports regularly to the Board of Directors. This committee also works closely with the Audit Committee in addressing risk areas to enhance the efficiency of risk management.

The Risk Management Committee consists of:

President & CEO	Chairman
Deputy President & Deputy CEO	Vice Chairman
Head of Finance and Corporate Services	Member
Head of Technology and Operations	Member
Head of Corporate Banking	Member
Head of Commercial Banking	Member
Head of Personal Financial Services	Member
Head of Credit Approval	Member
Head of Global Markets	Member
Head of Compliance	Member
Head of Risk Management	Member
Head of Business Banking	Member

In addition to these committees, the Board also has sub-committees to manage the day-to-day operational matters. These committees consist of appropriate management staff handling various functions. These committees include the Management Committee, Assets and Liabilities Committee, Credit Committee, Valuation Committee, Basel II Steering Committee, IT Committee, Credit Risk Committee, Special Asset Management Credit Committee and UOB (Thai) Subsidiaries Management Committee.

In 2009, the Board of Directors held four meetings, and the Audit Committee held five meetings. The attendance of each director is as follows:

<u>Board of Directors' meeting</u>	<u>Meetings attended</u>
Wee Cho Yaw	4/4
